FORTY-ONE LIVES LOST WHEN CALIFORNIA SANK

Graphic Story of How Submarine Caught A British Liner

PASSENGERS ARE CALM

And Those Who Reached Land Were Immediately Cared For By Townspeople

London, Feb. 8.—According to information from passengers, twenty-eight members of the crew of the California and nineteen passengers are missing.

Five were killed and twenty injured by the explosion, and others were drowned.

Forty-one lives were lost in the sinking of the California.

Part of the crew was training a gun upon the spot where oil bubbles revealed the submarine, when the torpedo struck, knocking the passengers off their feet. The vessel sunk in nine minutes.

Owing to drills while the vessel was on the way across the ocean, Captain Henderson said that the action of passengers was exemplary, but that in the swing and the speed of the ship, the lifeboats were swamped in lowering.

In many cases the passengers were forced to jump overboard and swim to the life boats. Fortunately the sea was calm and glassy.

The torpedo tore a great hole astern, the ship rapidly filling with water.

Townspeople crowded the quays and offered clothing to the scantily clad passengers. The injured were removed to hospitals.

According to the passengers there was only one submarine, which fired two torpedoes, one missing by a few yards, the other hitting the port quarter.

A periscope was observed. The submarine did not speak the life boats, but disappeared.

All officers remained aboard the California until the vessel sank.

Lee An American Negro.

Montgomery, Feb. 8.—According to Edward Lee, a negro, John A. Lee, who was aboard the California, was his brother.

Lee said that his brother was a cook and shipped from Baltimore.

DEPUTY WARDEN RESIGNS.

Atlanta, Ga., Feb. 8.—Deputy Warden Howard C. Arnold, of the Atlanta federal prison, who was several months ago suspended and later reinstated, has tendered his resignation to Warden Frederick Zerbst and the resignation has been accepted, according to the statement of Warden Zerbst.

The resignation was received Tuesday last week and became effective at once.

No appointment of Deputy Warden Arnold's successor has yet been made, it was stated. This appointment is at the disposal of the United States attorney general.

Warden Zerbst stated that Mr. Arnold gave no reason for his action in his resignation. Mr. Arnold was out of the city and could not be reached for a statement.

EXPENSIVE TO FEED DOGS IN GEORGIA

Atlanta, Feb. 8.—That it costs forty million pounds of pork to feed the dogs of Georgia every year, or more than enough to supply ample food to all the orphans' homes and charitable institutions of the state, is asserted by a Camilla, Ga., statistician who has made a study of the subject.

He does not mean that half million odd dogs in Georgia actually eat forty million pounds of pork a year, but he claims they eat enough to raise four hundred thousand head of hogs and that these would supply the missing forty million pounds of pork.

He recognizes, of course, that bird dogs and hounds and watch dogs serve a good useful purpose, but he makes the assertion that there are fifty worthless curs for every dog that earns its keep.

VIRGINIA NEWSPAPER CONFERENCE OPENS

Charlottesville, Va., Feb. 8.—"The Newspaper Business" is to be the main topic of the first Virginia Newspaper conference, which met at the University of Virginia today and will continue over tomorrow. In conjunction with the conference the Virginia Press association is holding its mid-winter meeting. Upwards of one hundred publishers, editors and other newspaper workers were present when the gathering was opened with an address of welcome by President Edwin A. Alderman of the university.

Canker Appropriation Was Passed By Senate

(Special to The Herald.)

Washington, Feb. 8.—The agricultural appropriation bill as passed by the senate, today, contains an appropriation of $430,000 for the continuation of the campaign for eradication and control of citrus canker disease in Florida, Alabama, Mississippi, Louisiana and Texas.

One hundred and eighty thousand dollars of this sum are to beome immediately available to continue the campaign between now and July 1.

The other $250,000 is to be used during the next fiscal year, with the stipulation that none of it shall be spent unless the states, counties or municipalities contribute a similar amount for the eradication work to be spent dollar for dollar with the federal government.

The bill also gives authority to the secretary of agriculture to quarantine any state or portion thereof when he shall determine it necessary to prevent spread of dangerous plant disease or insect infestation.

The provision could easily be applied to citrus canker disease, it was said, today, by a member of the committee at the discretion of the secretary of agriculture.

AGREED ON REVENUE BILL

Measure Would Raise $250,000,000 and Authorize the Bonds

Washington, Feb. 8.—The administration revenue bill to raise approximately two hundred and fifty million dollars and authorizing a bond issue of one hundred, was practically agreed upon by the senate finance committee, today. It will be submitted to a caucus, tomorrow, night.

An effort to eliminate the excess profit tax failed. It was agreed to accept a flat tax of two cents a pound on oleomargerine.

WALKED 17 MILES AFTER THROAT CUT WINDPIPE SEVERED

Sarasota, Feb. 8.—Walked seventeen miles with his throat cut and the windpipe severed. Such was the experience of Gabriel Maursh, who claims to be an Italian. He claims that he was asleep in the palmetto bushes near Grove City, on the Gulf of Mexico, when a fisherman, belonging to a camp of fishermen at Stump Pass, on the Gulf, came to him and awakened him, told him that he was going to kill him. He started to run, when the man pulled a pocketknife from his pocket and cut him across the throat.

After the cutting the man left him and he started along the key and walked to Venice, a distance from where he was cut of seventeen miles. He got as far as the depot of the Seaboard Air Line, when he fainted.

The doctors think that the man has a chance to live provided pneumonia does not set in. They think this will be the final outcome of the case on account of the cold air and the amount of blood that he is supposed to have lost in the long trip to Venice. The man is about 50 years of age and on being asked who should be notified in case he died, said that he had no relatives in this country.

4,000 ACRES OPENED TO SETTLEMENT

Belle Fourche, S. D., Feb. 8.—The Belle Fourche reclamation project, situated in the Valley of the Belle Fourche, just north of the Black Hills and near the junction of the Belle Fourche and Red Water rivers, was opened for settlement today in pursuance of a proclamation by the president. Approximately 4,000 acres are thrown open under the terms of the homestead and reclamation laws. The land is especially desirable for stock raising, being adjacent to an immense open range and with available hog stocks for winter feeding.

ASSAULT AND SUICIDE

New York, Feb. 8.—By shaving his moustache Balie P. Cantrell, president of the raincoat company, was enabled to pass servants who had been ordered to deny him admission into the home of Sol Friedman, wealthy cotton broker. He fired five shots, striking Friedman in the chest, then committed suicide. According to Friedman, Cantrell held him responsible for financial reverses of several years ago.

DEPARTURE OF AMBASSADOR

Has Not Been Set, But Gerard Is Receiving All Possible Courtesies

Berlin, Feb. 8.—The date of the departure of American Ambassador Gerard has not been fixed.

German authorities have made every endeavor to assure him and the American embassy all possible facilities for forwarding private telegrams.

No concern is felt regarding the safe departure of German officials from the United States.

SOME ACTUAL SNOW WHICH BLEW INTO OLD ST. PETE TOWN

St. Petersburg, Feb. 8.—Snow in St. Petersburg! It sounds absurd and is an unheard-of happening in this city of sunshine, but the coldest snap that has come to Florida in 25 years brought the first snow to St. Petersburg. Being the great rarity that it is, it came into St. Petersburg in style. This snow did not show itself as a "beautiful blanket of white," which caused the children to cry out in glee—it came in on a Pullman car from New York city, and was found when the train pulled in at the A. C. L. station.

Sunday morning Yardmaster Jordan was passing the car when his eye caught sight of a handfull of snow. Jordan pounced upon it as if it had been some valuable jewel, scooped it up into his hand and carried it into the station to show the employes. It was the first time they had ever seen such stuff,-and it melted all too quickly for their curiosity.

There are thousands of people in this part of Florida who never saw snow and if any of our tourists want to start a gold mine they should bring a tubfull of snow down from the north, pack it in ice, and charge 25 cents for a look.

IOWA EDITORS IN SESSION

Des Moines, Ia., Feb. 8.—Representative newspaper publishers and editors of the Hawkeye state rounded up in the capital today to tackle the print paper situation and other problems that are causing the newspaper makers to lie awake nights. The occasion of the gathering is the annual meeting of the Iowa Press association, which has a membership extending to every part of the state. The business sessions, interspersed with several features of entertainment, will keep the visitors in town until Saturday.

TAMPA DESIGNATED INSPECTION DISTRICT

(Special to The Herald.)

Washington, Feb. 8.—The senate passed, today, the bill introduced by Senator Bryan, last week, providing for a board of local inspectors of the steamboat inspection service at Tampa.

The bill is endorsed by the secretary of the commerce.

REFUSED TO NEGOTIATE

Ambassador Gerard's Action In Declining To Deal With Germany Is Approved

Washington, Feb. 8.—Ambassador Gerald's action in refusing to negotiate with German foreign officials regarding the re-affirming of the treaties of 1790-9 and 1828, was approved by the state department, today.

Ambassador Gerard's suggestion was that Germany consult the Swiss or Spanish legations, and is regarded as the proper course.

The basis of the German proposition to reaffirn the old treaty is found in the fact that this course was necessary to continue the conventions in existence as a result of the seaman's act several years ago, which termmated all treaties containing provisions in conflict with the new legislation for the protection of seamen.

It provided however that other sections remain in force. Most governments consented to the alteration of their treaties. Germany was asked to continue the treaties in an amended form but there was no response.

THE UNITED STATES NOT TO CONFISCATE PRIVATE PROPERTY

Washington, Feb. 8.—Formal statement giving assurances that the government has no intention of seizing bank deposits or other property of foreigners in the event of war, was issued, today, by the state department, with the approval of the president.

The statement was prompted by the anxiety of German subjects regarding bank deposits and interned ships.

SPEED WORK ON THE BIG WAR CRAFT

Shipbuilding Companies Accept Rush Orders On Destroyers and Submarines

Washington, Feb. 8.—The construction of navy craft by the Newport News Shipbuilding and Drydock company, the Foreriver Shipbuilding company and the Electric Boat Company, will be speeded to the limit of the plants. Work on two big battleships at Newport News is proceeding under double crews. It is estimated the battleship Mississippi will be completed by midsummer instead of January first, nineteen eighteen, according to contract. Representatives of the Electric Boat Company and the Foreriver Company offered Secretary Daniels to put aside work of a private nature and rush work on destroyers and submarines. They were told to go ahead at full speed. Many large manufacturers of clothing have offered their plants to rush uniforms if necessary. Warlike preparation in the Navy Department is virtually completed.

PROPOSES A CONFERENCE TO PREVENT WAR BETWEEN THE U. S. AND GERMANY

Buenos Aires, Feb. 8.—A meeting of the Pan-American union has been called, announces the newspaper La Presena. The announcement adds that Romulous Naon, Argentine Ambassador to the United States, proposes a conference at Madrid with the object of preventing war between the United States and Germany.

GERMAN CLERGY'S OPINIONS

The Hague, Feb. 8.—Berlin correspondent of the Roman Catholic newspaper Tijd, of Amsterdam, reports a series of conversations with the German clergy on how the submarine war is reconciliable with Christian doctrines. The general opinion was that it was forced upon Germany by Great Britain's pitiless warfare. A mapority hold to justification through necessity. Many south German clergy, he says, disapproved the submarine campaign.

SWEDEN FOR NEUTRALITY

Stockholm, Feb. 8.—Rejecting President Wilson's invitation to sever relations with Germany, Sweden announces the strict neutrality.

Fifteen per cent discount on ammunition this month.—Railey-Milam Hardware Company.

OVERT

Act Is Still Lacking In the View of the American Government

IS NO TECHINICALITY

Will Plunge Us Into War—Ruthless Submarine Warfare Continues

Washington, Feb. 8.—The American government is still without official information, and evidence of an overt act on the part of Germany is considered necessary to justify the president to go before congress for authority to use the necessary means to proctect Americans.

There is no longer doubt that the ruthless campaign is in full swing after the definite warning to the United States.

It is believed that no American ships have been destroyed because they are lying in American ports instead of plying their usual trade.

If no American lives have been lost it is due to chance, and is generally conceded that the sinking of the British ship California with an American aboard makes out a clear case of technical violation of the rights of the United States.

The president, however, is represented as being determined not to plunge the country into war on account of a technicality. When he moves it will be on complete evidence of an outrage about which there can be no question. Then he expects to have the American people and congress behind him.

WILL DESTROY GREAT PART WORLD'S TONNAGE

Washington, Feb. 8.—The continuation of Germany's success in ruthless submarine campaign of the past three days, would destroy a great part of the world's merchant tonnage.

Officials estimated that since the campaign went into effect, February 1, vessels were being sunk at the rate of nearly a million tons monthly.

This amount was set by German officials as necessary to stare England.

At this rate it would take just four years to destroy the tonnage of the world.

Ship manufacturers of the allied countries are rushing work on merchant vessels.

TURNED BACK AN AMERICAN STEAMER

New York, Feb., 8—The Holland-American steamer Ryndham, which left New York for Rotterdam, January 29, is returning after being warned by a submarine.

She was turned back when within fourteen hours of Falmouth, according to unofficial advices. The steamer was warned not to enter the zone.

President Franklin, of the International Merchant Marine Company, said that again the sailing of the St. Louis and the St. Paul has been indefinitely postponed.

REPORTED ANOTHER AMERICAN WAS KILLED

Washington, Feb. 8—Unofficial advices state that George Washington, a negro fireman, an American, was killed when the British steamer Turino was sunk by a German submarine.

President Wilson has ordered that all facts be gathered as promptly as possible.

AERONAUTICS EXPOSITION

New York, Feb. 8.—The remarkable advance in aircraft construction during the last few years, particularly since the beginning of the European war, is comprehensively illustrated by the exhibits revealed to the public today at the opening of the first Pan-American Aeronautics exposition in this city. The exposition will hold forth for one week in the Grand Central palace. The exhibition is intended to afford a convenient means for co-operation of the many interests connected with aviation and aerial military and naval defense, besides giving the general public an opportunity to keep pace with the development of this science.

TO CONSIDER TENNIS CHANGES

New York, Feb. 8.—Delegates representing clubs belonging to the United States National Lawn Tennis association are arriving in New York from all sections of the country to attend the association's annual meeting at the Waldorf-Astoria tomorrow. From the number and variety of the matters to be brought to the delegates' attention this is expected to be the most important meeting of recent years. Suggested changes in holding the doubles championship, a broader program for juniors' and boys' tournaments, changes in the amateur rule, amendments to the constitution creating new sectional lines, suggested qualifications for entry in the national championship and changes in the award of "championship" titles are a few of the matters scheduled for discussion.

CONTINUE TO PUSH ADVANCE

British Give Germans No Rest In the Region of the Somme

Associated Press, Feb. 8.—The British in the Somme region continue to push their advance toward Bapaume.

Southeast of Bapaume they have taken the highest point of Sailly Saillisel hill, and progress has been made on both sides of the Ancre river.

In France and Belgium the fighting is confined to artillery battles and trench raiding, and on the eastern front quiet prevails.

Rome reports the failure of Austrian attacks against the Italians in the Sugana valley.

In the Carpathians, near Kirlibaba, Petrograd reports the capture of first line allied Teutonic trenches, which are held by the Russians despite counter attacks.

The Teutonic allies in Macedonia have shown activity along the entire front, according to a French communication. This probably means that intensive fighting will be resumed in this theater.

GEORGIA CITIZENS WORKED ROAD A DAY ON DIXIE HIGHWAY

Referring to the enthusiasm of Georgia people in efforts to put their part of the Dixie Highway in first class condition, the Savannah News says:

"The rapid development of Georgia's system of public highways is due to the sort of spirit that impelled a party of road workers who left Waycross the other morning. The Journal-Herald's report of the expedition contained the following:

"About 100 tenderfeet left Waycross this morning to do one day's time on the roads of Pierce county. The crowd left Waycross early this morning and traveled by automobile, carrying with them enough shovels to supply a regiment of trench diggers. The object of the pilgrimage to the swamp between Waycross and Folkston was to do work on a portion of Pierce county's public road that is a part of the Dixie highway. For several weeks automobiles traveling the Dixie highway have been sticking in the mud between Ware and Charlton counties, so Waycross and Folkston good roads enthusiasts decided that if there was no other way to repair the Dixie highway private citizens would do it themselves.

"The one thought of those citizens was that the bad stretch be repaired. They were not so much concerned with the question of whose business it was as with the evident fact that it was somebody's business. A chain is no stronger than its weakest link and the same may be said with some modification of a highway. No road will ever become popular as long as it contains a "sticking point," where the neighborhood strongarms make a living by lifting touring cars out of the mud. The people of Folkston and Waycross are enthusiastic over their branch of the Dixie highway and evidently they are not disposed to stand on ceremony when it comes to eliminating a bad stretch that really mars the entire route. Some say they are cranks or that they are officious in taking over the duties of roadbuilding, but the main thing is that they went down there to get the thing done. Whether they had any business doing it or not, it is hardly likely that there will be a move to destroy the result of their labor."

FLORIDA CANE SYRUP

Kissimmee, Fla., Feb. 8.—A huge syrup mill with a capacity of 950 gallons at one boiling has been opened on St. Cloud road, on Mill Slough canal. The mill is owned by J. W. Wilson, Jr., who believes firmly that the making of syrup will eventually become one of the leading industries of this section.

Actual making of syrup has been started, and Mr. Wilson is now grinding the product of several acres of Japanese cane which he raised himself on muck land adjoining the mill. It is estimated that there are 550 acres of the finest sort of cane land in the immediate section of the new mill.

J. D. Branch, of Tampa, who is an expert in syrup making, has been engaged as foreman of the new factory.

WINTER CARNIVAL AT DARTMOUTH

Hanover, N. H., Feb. 8.—The annual winter carnival at Dartmouth college, which has won recognition as one of the greatest celebrations of winter sports in this country, was formally opened today and will be continued through the remainder of the week. This year the affair has attracted competitors from Canadian universities as well as from the leading Eastern colleges. The program provides for hockey games, skating competitions, ski jumpinp, snowshoe races, tobogganing and other sports. During the three days the fraternities will keep open house and there will be a constant succession of receptions, concerts, dinners, dances and other social functions.

LANDED

Four Hundred Pound Sunfish of Rare Variety, Stranger In These Waters

AND RECORD IS BROKEN

Long Island Visitors Make the Catch—Others Also Find Great Sport

By W. S. Thomas.

Frequenters of the Royal Palm dock were treated to an interesting sight yesterday when Mr. and Mrs. A. Mayer, of Long Island City, returned from a day's fishing trip on board Captain Scott's charterboat Corsair with one of the strangest catches that has ever been seen in this vicinity.

The fish in question was described as a Jumping Manitia, or Sunfish, and is probably the largest one of the kind that has ever been captured. The fish will probably weigh about four hundred pounds and is about eight feet long and about six feet across. It is almost round, with a large head that resembles that of a Manatee or seacow.

Fishermen who saw the big catch at the Royal Palm dock yesterday say that they have seen smaller specimens of the same kind of fish on the South American coast but have never had any idea that they would grow to such a size as that brought in yesterday.

The small fish of this nature are known along the coast of Brazil and Central American coasts as being very active and when caught on a line will make a great fight. For this reason there have been very few of them taken in this way.

Scientists claim that some of these fish have attained great size, a few having been seen that would weigh from fifteen hundred to two thousand pounds.

Captain Scott only recently purchased a new harpoon with which he intended giving his patrons a good time with the big fish that frequent the coast, but he had no idea of ever capturing such a curosity as that which was strung up at the Royal Palm dock yesterday.

Mr. Mayer, who is connected with the United States Printing Company's Long Island City branch, chartered the yacht and with Mrs. Mayer started out bright and early yesterday morning for a day's fishing on the upper kingfish grounds. About ten o'clock the party was off the house of refuge when Captain Scott's eagle eye spied something strange swimming in about thirty feet of water only a short distance from the boat.

Calling Mr. Mayer's attention to it the Captain produced his harpoon and started in pursuit. The monster was under the water about five or six feet and when the harpoon was thrown the instrument buried itself in the back of the big fish. There was considerable fighting at the start, but the fish suddenly gave up and a rope was tied about its body and it was brought back to Miami, where it furnished amusement for hundreds of people from the hotels and cottages.

The fish is almost round in body resembling that of the flounder, while there are two immense fins, one protruding from the back and the other from the fish's belly. The hide of the fish is very tough like that of the Manatee or seacow, while the nose also somewhat resembles this species of the fish tribe.

Mr. and Mrs. M. F. Seeley and son, Fred F. Seeley and Joseph Irwin, all of Cedar Rapids, Ia., returned with a big catch of fish on board the charter boat Gypsy Queen, Captain Hatch, yesterday and report having had the time of their lives.

Frederick Seeley had the honor of catching a fifty pound amberjack which furnished any amount of sport, while Mrs. Seeley landed a small shark that gave her an abundance of amusement and excitement. The balance of the catch consisted of forty kingfish, barracuda, mackerel, grouper and other fish.

The party was taken a distance of about thirty miles down the coast and around Fowey Rock lighthouse where most of the fish were caught.

Mr. Seeley has made a number of visits to Miami and has enjoyed the fishing off the coast in former years but yesterday's catch exceeds any of these, he said yesterday. His last trip was made two years ago when he brought in a nice mess of fish but nothing to compare with yesterday's catch.

M. J. Heim, of Kansas City, Mo., who is spending the season in the city, was out on his yacht, Dragon, recently and returned to the Royal Palm dock with one of the largest barracuda that has ever been brought into the Royal Palm dock. The fish weighed seventy-one pounds and is now being mounted by Harry Brigham, the local taxidermist, and will be sent to Kansas City where it will form a part of Mr. Heim's fine collection.

With Mr. Heim on his fishing trip were Mr. and Mrs. Phillip Keally of Kansas City. Mr. Keally is president

KNOWS MIAMI AND HE WILL INVEST MORE

A. H. Kretz of Reading, Pa., Has Idea of Erecting Building Here

A. H. Kretz, a prominent real estate man and builder of Reading, Pa., has arrived at Hotel Urmey to pass the greater part of the season, and incidentally he is looking about for investments in Miami property.

This is by no means Mr. Kretz's first visit to this city, for he has come here annually since 1905, and at one time owned a choice block of property in this city, which he sold some time since at a very satisfactory increase over the original cost.

"Yes," said Mr. Kretz last night, in reply to a question, "I am going to buy something here as soon as I find suitable property, and shall probably erect a building on it. I know what Miami is and have great faith in the city's future."

Mr. Kretz has built over two hundred houses in Reading, is a director in several banks and other financial institutions, and a man of large affairs in his home town. Now that he has passed the prime of life he is looking about for a suitable place to pass the winter months during the remainder of his life, and at the same time a place where he can invest and watch his money grow as he enjoys himself. He has decided that Miami is just such a place, and so will again identify himself with Miami's future.

He is accompanied by Mrs. Kretz, who also will remain in Miami throughout the season.

HIGH SCHOOL ANNUAL

The senior class of Miami high school has adopted a novel means of securing funds with which to publish their Annual this year. They have decided to secure subscriptions for a well known woman's magazine. Members of the class will canvass the city today and tomorrow.

In 22 California counties there are 87,600 acres of government land open to settlement.

PRIMARIES IN JACKSONVILLE

John W. Martin Defeats Mayor J. E. T. Bowden—List of the Nominees

Jacksonville, Feb. 8.—City officials nominated in Tuesday's primary were:

Mayor—John W. Martin.

City Treasurer—Alexander Ray.

Municipal Judge—John L. Hall.

City Recorder—Second primary necessary, with G. D. Ackerly and George M. Price contending.

Councilmen nominated were:

First Ward—No nominations, second primary necessary.

Second Ward—William H. Hall and J. R. Werner.

Third Ward—John B. Callahan and William A. Bours.

Fourth Ward—P. A. Holt and Rudolph Grunthal.

Fifth Ward—Charles G. Goldstein. Second primary necessary to make other nomination.

Sixth Ward—C. C. Jones and Charles T. Paxon.

Seventh Ward—No nominations.

Eighth Ward—F. P. Williams. Second primary necessary to make other nomination.

Ninth Ward—John T. Aisop, Jr. Second primary necessary to make other nomination.

Tenth Ward—Joel H. Tucker and A. E. Adamson.

Eleventh Ward — W. T. Edwards and P. J. Hoke.

John W. Martin defeated Mayor J. E. T. Bowden in the primary by the largest majority ever given a candidate for mayor in the history of the city. He received 2,890 votes to 2,056 votes for Mayor Bowden, giving him a majority of 834. Mr. Martin carried nine out of eleven wards in the city. Mayor Bowden carried the Fifth and Seventh wards by small majorities.

Another spectacular race was that of W. W. Anderson for municipal judge. He defeated both of his opponents by but ten less than two to one. He carried every ward in the city by a large majority. His total vote was 3,210. W. T. Cowles, Sr., received 1,290 and R. B. Mosley received 330.

One of the most interesting contests in the election was that between Recorder G. D. Ackerly, W. A. Jones, G. M. Price and J. D. Grether for recorder. Mr. Ackerly was high man by nearly two to one over his nearest opponent. His vote was 1,959 to 1,046 for G. M. Price; 1,008 for J. D. Grether and 767 for W. A. Jones. Messrs. Ackerly and Price will run it off in the second primary on Tuesday, February 20.

John L. Hall, candidate for tax assessor, received the largest vote in the election. He had no opposition and received a total of 3,584 votes. Alexander Ray, candidate for re-election as treasurer, was a close second with 3,176. He was also unopposed for re-election.

JUNIOR "PROM" AT WISCONSIN

Madison, Wis., Feb. 8.—Many visitors are arriving in Madison to attend the junior promenade, the biggest social event of the year at the University of Wisconsin. The "prom" is to take place in the new state capital tomorrow night and from all indications it will be the most brilliant function of its kind in the history of the state university.

Gas in the stomach or bowels is a disagreeable symptom of a torpid liver. To get rid of it quickly take HERBINE. It is a marvelous liver stimulant and bowel purifier. Price 50c. Sold by Eagle Drug Co.

MORE HOTELS SUPREME NEED IN THE STATE

All Filled With Guests This Season—A Lesson For the Future

Miami is not alone in experiencing the greatest season of all time, but every resort town of the state is filled to overflowing, and the same constant and ever increasing demand is made for rooms at all of the hotels and apartment houses in these towns, as well as in the private homes, according to A. L. Messer, of Tallahassee, hotel commissioner for Florida, who has just completed a tour of the resort cities and arrived in Miami.

During the past year three millions of dollars were invested in new hotel buildings, Mr. Messer said, and yet all of the hotels in the state are filled with tourist guests, and are unable to meet the demand for additional rooms.

Many new hotels must be built in the state during the coming summer to supply the demand for rooms next season, Mr. Messer believes. Miami will be one of the foremost towns in the state in erecting new buildings of this character, he declared, as there is much talk here now of new hotels and apartment houses to be built before next winter.

SAYS IT IS STICKY BUT WHO WILL CARE

Cincinnati man tells how to shrivel up corns so they lift out.

Ouch ! ! ! ! ! ! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezone when applied to a tender, aching corn stops soreness at once, and soon the corn dries up and lifts right out without pain.

He says freezone is a sticky substance which dries immediately, and never inflames or even irritates the surrounding tissue or skin. A quarter of an ounce, which will cost very little at any drug store, is said to be sufficient to remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels.

OBITUARY

Mrs. Sarah Davedge.

Mrs. Sarah Eveline Davedge, sixty-nine years old, died at her home, 315 avenue C, north, yesterday morning, after a lingering illness. Mrs. Davedge was a sister of Mrs. P. C. Cox, of this city, and was a native of Georgia. The funeral service will be held this morning and the interment will be in the City cemetery by the W. H. Combs Company.

Tonight, Fair building, Trinity bazaar. Scolloped oysters, oyster stews made with fresh milk, salad, etc. Ice cream and cake. Fifty cents.

GEORGIA RED CROSS READY FOR BUSINESS IN EVENT OF WAR

Atlanta, Feb. 8.—As a result of the severance of diplomatic relations between the United States and Germany, a telegram was received from Washington by Governor Harris Sunday asking him for the protection of German consulates and German interests from any violence which might be threatened in Georgia. The governor immediately communicated with Mayor Candler, of Atlanta and Mayor Pierpont, of Savannah. No trouble of the nature referred to is anticipated in Georgia.

Secretary Lansing called special attention in his dispatch to the fact that a breach of diplomatic relations does not mean a declaration of war or necessarily lead to that end. It is all the more important therefore that the expression of popular feeling against Germany be not allowed to manifest itself in violence of any kind that might make more difficult the preservation of a peaceful status.

A second local development from the new status of international relations was an order from the Red Cross headquarters in Washington to the local chapter to place itself immediately on a war footing.

It become known Sunday that the national plan for the Red Cross is to organize it in three grand divisions, one in the east, one in the west and one in the south. The local chapter will make a strong fight for Atlanta as headquarters of the southern division.

HOT SUNDAY FOR ST. PETE.

St. Petersburg, Feb. 8.—Nine fire alarms Sunday gave the St. Petersburg fire department the busiest dav in its history and when the last run was over the men collapsed in their beds and went to sleep utterly weary. Chief McNulty, who had been ill for two days, was in bad shape after his strenuous day.

Only one of the fires was serious. Two 2-story houses owned and occupied by negroes, at Eighth street and Second avenue south, were destroyed. The other fires were trivial and were easily extinguished by chemicals.

HERALD ADS PAY

THE WONDERFUL DEVELOPMENT
Which We Undertook in Giving to Miami the Million Dollar Residential Section of
RIVERSIDE HEIGHTS
HAS BEEN ACCOMPLISHED WITH THE AIM OF INCREASING THE VALUE AND SELLING PRICE (SO WE COULD MAKE LARGE PROFITS) ON
THE VACANT LOTS

We have expended hundreds of thousands of dollars in Riverside Heights developments, and now—with Riverside Heights lots facing the most successful period in their history and an hundredfold advance in prices just ahead in the next few years

WE GIVE YOU
The Opportunity
TO SHARE WITH US THESE
Large Profits
IF YOU BUY IN THE NEXT 60 DAYS

The sooner you buy, the better. It goes without saying that the choice locations will be secured by those who come first. This is a big consideration and we urge upon you the IMPORTANCE of prompt action in this connection. You cannot make a mistake in buying, so buy NOW, in order that the choice and desirably situated lots be YOURS. By all means, make an early selection and get a well situated lot.

Resolved.
THAT
1 LOT
AT LEAST
IN
BEAUTIFUL
RIVERSIDE HEIGHTS
SHALL BE
MINE!

WE ARE GLAD THAT
Present Prices
ARE WITHIN
Reach of All
$400 TO $1500—10 PER CENT CASH
10 PER CENT MONTH

If there is one class of people above all others we would like to see profit by our big half-million dollar sale of Riverside Heights Lots, it is the PEOPLE OF MODERATE MEANS, people engaged in the busy work-a-day world of Miami, who, a few years hence, would be unable to purchase lots here at the greatly increased values sure to come. To these people we say—BUY NOW while prices are low.

Don't Be Content With the Resolution—Act On It—Call Us Up and Let Us Take You to Select YOUR LOT TODAY—NOW!

Rotarians and the Ladies' Evening of Rare Merriment; Banquet at the Royal Palm

It was ladies' night, last night with the Rotary Club, and the club pulled off many laughable "stunts" that made the occasion unique in every way No dissatisfaction with the entertainment was expressed by any of the fair guests, at least in public.

Fifty-four members of the club and their guests sat down at eight o'clock to a delightful banquet at the Royal Palm, and the fun was fast and furious for the next two hours.

At the outset there was a slight controversy over the breaking of club rules with regard to serving liquor at club luncheons and banquets, when dainty glasses appeared containing a straw colored liquor with highly seasoned cherry floating near the bottom of each glass. Some argument as to the propriety of breaking the rule was indulged in, and as it was about to become warm, the head waiter told the excited controversialists that the liquid was merely ginger ale, and that ended the argument with the plaintive query, "Well, why in the world did you disappoint us so?"

Dr. Jackson, president of the Miami Rotarians, presided during the ceremonies and introduced each number in his usual happy and felictious manner.

The Rotary song was sung by members and guests, and, because it was not entered into as heartily as the president thought proper, it was sung again.

Between courses of the sumptuous dinner speeches of welcome were made and each Rotarian introduced the guests he had invited to be with him. Some of them were compelled to introduce their own wives, to all of which the guests responded very graciously.

Home Grown Songs.

A unique feature of the evening was songs written by members and, while the doors were securely locked so that none could escape, they were sung or said by their writers.

Mr. George McKinnon's offering which he sang with his usual voice and spirit, was as follows:

"It's a long way to the Rotary,
As everyone but Jackson knows,
It's a serious time,
In the snow-clad clime,
While we bask,
'Neath the shrine of the rose.

"We herald the day of the Tourist,
While the real estate agent grows,
On the Upas vine,
In our Southern clime,
Which never knows repose."

Having gone that far the assembly but could remain and endure a song dedicated to "Visiting Rotarians," given by the author, Mr. Frank B. Stoneman, who told the history of the wonderful production. The song, to be tried on the ukelele, runs this way:

"It's a long, long way to Miami,
It's a long way you've come;
It's a long way for tourists,
It's a long road to roam;
Good-bye to ice and snowdrifts,
No caol bin to comb,
It's a long, long way to Miami,
But a darn sight farther home."
No coal bin to comb,
And then Mr. R. Eric Hall in a most masterly manner sang:

"We're a Club of fine Rotarians
And we're jolly all the while.
Once a week we're all gregarians
Then we talk and romp and smile.

"Our president is Jimmie Jackson,
Gives us nasty drugs and pills—
Cures us to our satisfaction
Then he sends us whooping bills.

"Our only Vice is Frank B. Shutts,
he's
A Great lawyer stern and wise.
Full of therefore, wherefore, buts—
he's
Full of hot air to his eyes.

"Treasurer is Smiley Tatum
Handsome ladies' man, and tall,
Real estate is how you rate him
And a crack-a-jack, that's all.

"Secretary George McKinnon,
Sells supplies and builder's paint.
You might think he'd try to skin
'em—
He's not built that way, he ain't."

Stunts and Toasts.

One of the stunts that called out a great deal of laughter was the roll call. Each Rotarian deposited a quarter in front of his plate for a forfeit if he failed to respond, or if he responded to some one else's designation. "Pills," was called, and Dr. Jockson responded quickly and pocketed his quarter. "Ten dollars and in the attic," called up W. N. Urmey, who also saved his cash. "Neighborhood Willies" failed to get a response and H. C. Turner, music dealer, had to put up, and so the fun went all through the unusual roll call.

The good night toast, "To the Ladies, God bless them," was responded to most feelingly by Mr. Frank B. Shutts, who alluded to the possibility that this country might be dragged into war, and told of the part that the women of this country would take in the struggle which, he said, was sure to come.

The club then adjourned without further catastrophes, to meet in regular weekly session next Thursday afternoon.

The banquet last night was for the purpose of celebarting the closing of the charter and also for the purpose of making the ladies acquainted with the purposes of the organization.

Guest List.

Those present were: Dr. and Mrs. J. M. Jackson, Mr. and Mrs. F. J. Paxson, of Atlanta, Mr. and Mrs. E. B. Douglas, Mr. and Mrs. Frank B. Shutts, Mr. and Mrs. F. B. Stoneman, Mr. and Mrs. Geo. A. McKinnon, Mr. and Mrs. J. D. McKinney, Mr. and Mrs. Geo. B. Romfh, Mr. and Mrs. W. W. Culbertson, Mrs. I. I. Litwensky, Mr. and Mrs. R. E. Hall, Mr. and Mrs. J. F. Chaille, Mr. and Mrs. H. Hastings Mundy, Mr. and Mrs. John Seybold, Mr. and Mrs. J. R. Tatum, Mr. and Mrs. S. M. Tatum, Mr. and Mrs. J. W. Humphreys, Mr. and Mrs. W. N. Urmey, Mr and Mrs. John W. Claussen, Mr. and Mrs. E. G. Sewell, Mr. and Mrs. John C. Gramling, Mrs. Alex St. Clair-Abrams, Mr. Robert Zoll, Mr. and Mrs. E. W. Swarthout, Aurora, Ind., Mr. Edward Taylor, Mr. and Mrs. Ricbak Le Brond, Mr. and Mrs. F. W. Woolrich, Mrs. A. M. Woolrich, Mr. and Mrs. Chas. H. Ward, Mr. C. H. Arthur.

Officers and Members.

The present officers and members of the Miami Rotary Club are:

Dr. James M. Jackson, Medical Profession, president.
Frank B. Shutts, Attorney, vice-president.
G. A. McKinnon, Retail Paints, secretary.
S. M. Tatum, Real Estate, treasurer.
E. G. Sewell, Retail Shoes.
Gaston Drake, Retail Lumber.
W. N. Urmey, Hotels.
O. W. Maynard, Jeweler.
F. B. Stoneman, Editor.

NOTICE

There will be a moonlight sail to Cape Florida given by White Temple Circle No. 6, tonight. Tickets 50 cents. Steamer Dixie leaves Twelfth street dock at 7.45 p. m.

Tickets—Hippodrome, Fotosho, big fish. See Lady of a Thousand Pockets.

Personal Mention

Mr. and Mrs. Eugene O'Connor and little daughter Eugenia of Chattanooga, Tenn., have arrived in the city to spend the remainder of the season and will be at home to their many friends at 1208 avenue J.

Mr. and Mrs. J. W. Myers of Ashland, Ohio, and Mr. and Mrs. V. C. Homan of Lodi, Ohio, were out on the charterboat Evelyn the Second Wednesday. A number of fine kingfish, barracuda and grouper constituted their catch.

William J. Sexton, a retired fireman of Detroit, having spent some time at Jacksonville will remain the rest of the season with his children, Wm. E. Sexton and family, in Riverside. Miss Marie Cahill, of Boston, Mass., is also spending a few weeks with the Sextons.

AFTERNOON TEA FOR HONOR GUESTS

Miss Jewel Green entertained at tea yesterday afternoon at a charmingly yellow decorated tea table on the broad porch of the Sign of the Golden Orange in honor of Miss Jane Tatum and Miss Bess Burdine and Miss Burdine's house guests, the Misses Elsie Alexander and Marion Dunson.

Miss Green's other guests, who so much enjoyed the hour or so over the tea cups, were Mrs. J. Arthur Pancoast, Mrs. Fred Cason, Mrs. Tom Koons, Miss Hazel Davis, Miss Josephine Blackwood and Miss Katherine Kennedy.

ELKS SOCIAL SESSION FOR VISITING MEMBERS AND LADIES TONIGHT

A social feature of much interest tonight will be the Elks' social session for members and their ladies to which all resident and visiting Elks are invited. It is understood, of course, that every Elk will bring a lady. A musical program of rare merit will be given by local talent at 8:30 o'clock. This will be followed by refreshments and then dancing. The festivities will be in Elks' home on Twelfth street.

HEARD OF ARRIVAL OF STORK IN MIAMI

Beautiful engraved cards bearing pictures of that cunning old bird, the stork, convey to West Palm Beach friends the glad tidings that Mr. and Mrs. Ralph E. Racey, of Miami, have a son, Ralph, Jr., who made his appearance last Friday. The Raceys formerly resided in West Palm Beach and are quite popular with the younger married set.—Palm Beach Post.

Social Service the Topic Before Housekeepers' Club

At the Housekeeper's Club of Cocoanut Grove yesterday afternoon Miss Lucia Bowen of Miss Harris' school gave a most valuable and interesting discussion of the organization, control and progress of social service.

The problems of social service, Miss Bowen began, arose largely with the rapid growth in this country of large cities which increase in poulation faster than the country districts. The results of this rapid growth of cities are a great number of serious problems for which specialized remedial legislation and social service is necessary.

The first of these problems is that of a high death rate, with the increased percentage of infant mortality. The remedies for the appalling infant mortality of large cities are those which effect the general health of the people as well as making for better and stronger babies. Improvement of the building laws, the establishing of public baths, the solution of the problems of the tenement house through the building of model tenements, increased care in sanitation, provisions for recreation through playgrounds and recreation centers, public piers and the like, the inspection of food and the factories that produce food, in order that its purity and wholesomeness may be determined and finally medical inspection and assistance for both mothers and children—all these are factors in solving some of the problems of infant mortality and the increased death rate.

The political results of rapid city growth, particularly through the increase in the number of foreign born citizens, are most widespread in their influence. The indifference to the exercise of the franchise seen in the large cities by many individuals, the great incerase in the ignorant vote, the easy rise of the political boss and the extent of his power in all phases of municipal life are all results of congestion. The only influence which can properly combat this inertia of the social and political consciousness which is the menace of our cities is the influence of the right sort of education not only through the public schools but also through the free libraries, free lectures, and other factors which encourage first thought and then wise political action.

The housing problem, which is one of the gravest in the large cities, is considered by many to be the fundamental question in our modern social service since on the conditions of housing depends not only the health but the morals of the people. Lack of air, due to overcrowding, the use of basements or the use of inside dark rooms has a most disintegrating effect not only on the family life but also on the morals of the individuals in the family, through the impossibility of privacy and the often necessary feature of taking lodgers into the family.

The questions brought about by the segregation of classes that seems almost inevitable in a large city were also discussed by Miss Bowen. The great foreign population of the cities segregates itself naturally and at the same time makes possible the creation and maintenance of old racial traditions not compatible with the ideals of America and prevents the easy assimilation by America of the mass of the foreign born. The segregation of the rich and the poor, making for class restrictions and tending to destroy democracy, were also a factor.

The problems of city sanitation, of clean streets, garbage and sewage disposal, water supply and the like are always complicated and increased by the rapid growth of the cities.

Social service in its relation toward these municipal problems, Miss Bowen continued, is the science of the processes of human association, and has as its purposes the uplift of the important and lower strata of society.

The remedy to the housing problems, Miss Bowen felt, lay first in thorough and adequate surveys which shall give the facts of the situation, the passing and enforcing of right legislation and finally constant inspection that the right conditions are maintained.

Through education, even more than legislation, however, is the greatest social service to be accomplished. The libraries, the schools for foreigners, both day and night, the influence of the social settlements which have been called the working man's college, the influence of the church and of the proper philanthropic agencies are among the most important. As instances of settlement houses that have brought about such uplift and that have demonstrated their great success as social service agencies Miss Bowen spoke of the University of Chicago Settlement house, Chicago Commons, Hull House, and in England, the father of all settlement houses, Toynbee Hall.

After emphasizing the value of the increase of vocational training and recreation centres Miss Bowen closed her very comprehensive talk with a strong appeal for social service without sentimentality which emotion, she felt, was both confusing in its results and futile in its aim. The introduction of false sentiment, she said, was destroying the stamina of the present generation, and she felt strongly the necessity for the increase of the ability to do sturdily and courageously the unpleasant duty through the introduction of training which shall be disciplinary and which should give to the individual the ability to control his desires and do his duty for his country whether it seemed to him distasteful or not.

The afternoon concluded with the serving of refreshments which the large number of guests of the club enjoyed.

Chicago last year registered 47,000 births and 36,410 deaths.

DAUGHTERS BRITISH EMPIRE HEAR ARCHDEACON IRWIN

Owing to the great press of his duties at the Aviation School Mr. Philip Rader, who was to have spoken at the meeting of Sir Douglas Haig chapter, Imperial Order of the Daughters of the British Empire, found it utterly impossible to do so yesterday afternoon at their work meeting at Netherby, the home of Mrs. William Clifford, but hopes to be able to do so next week.

In the basence of Mr. Rader Archdeacon Irwin told some of the experiences of his son, who was wounded during the fight at the front and was in a hospital for three months.

The guests for the afternoon were Mrs. Limon, Mrs. Werm, Mrs. Walsh, Miss Leach, Mrs. Neib, Mrs. Boysen, Miss Yenny, Miss Ceruti.

Two new members were added to the chapter, Mrs. McGuire and Mrs. Bates.

The members present were Mrs. Kitson, Mrs. McGuire, Mrs. Albury, Mrs. Price, Mrs. Curry, Mrs. Cooke, Mrs. Van de Voorde, Mrs. Irwin, Mrs. Sturrock, Mrs. Down, Mrs. Mousley, Mrs. Bates, Mrs. Mowat, Mrs. Kirk Munroe, Mrs. Forrester-Brown, Mrs. Hickson, Mrs. C. Monroe, Mrs. Vivian, Miss Roberts, Miss French, Miss Albury, Miss Ragonnet, Miss Irwin, Miss Gunn, Miss M. Brown.

BRIDGE PARTY YESTERDAY AT HOTEL HALCYON

A delightful bridge party, given by Mrs. Thomas L. Bigelow of Columbus, Ohio, one of the most charming hostesses of the winter, was given at Hotel Halcyon yesterday evening. The card room was prettily decorated, a unique color scheme of orange and black being carried out througnout even the minute details.

Mrs. Bigelow's guests were Mr. and Mrs. E. A. Cole of Columbus, Ohio; Mr. and Mrs. C. L. Bingham, Mr. and Mrs. H. P. Churchill, Chicago; Mr. and Mrs. C. E. Foster, Washington; Mr. and Mrs. W. S. Fox, Stafford, Pa.; Mr. and Mrs. E. H. Hinman,

HEARING FROM ADOPTED CITIZENS

Doubt as to the position German-Americans and Austro-Americans would take in case of difficulty between the United States and either Germany or Austria or both, is rapidly being dispelled by the action of the societies and the individuals of those races through the United States.

Representatives of German, Austrian and Hungarian societies all over the country, while firmly proclaiming their grief that there should be even the shadow of a misunderstanding between the country of their fathers and this, are as warm in their loyalty as are any native born.

They hope that the break will not come. So do we. They are determined that if the break does come and war is declared, they will support loyally and truly the government of the United States. And so are we. In that much we are at one, native born and foreign.

Many of the great societies have passed resolutions stating their postion clearly and emphatically and there is not a disloyal voice among them.

Perhaps the best expression yet noted, comes from John A. Folwartshny, president of the German-American Alliance Society, of Maine, when he says, "Now that the crisis has come, it will be known that German-Americans are for America first, that they always have been loyal and always will be loyal to the country in which they now live. It is my opinion that President Wilson is justified in every respect in his action. Our president has taken the only step possible, under the circumstances."

And everywhere the papers are relating stories of meetings held by German-Americans, Austro-Hungarian-Americans, Bohemian Nation Alliances, the Croatian Sokol, Swedish and Norwegian societies, at which the playing of the "Star Spangled Banner" is greeted with applause and where resolutions supporting the president and the government of the United States, are passed unanimously and with enthusiasm.

Only here and there is a voice in opposition, exactly as here and there is opposition to any movement on the part of the government to vindicate the rights of the country, expressed by a contemptible few faint hearted Americans.

Our foreign born citizens and the descendents of foreigners, those who have become naturalized and a part of us, are going to form as loyal and reliable a portion of the country as will any other class of citizens. That much is being daily assured.

TO SURVEY THE HARBOR

Senator Fletcher has succeeded in securing the approval of the senate commerce committee, of which he is the distinguished chairman, placing a provision in the rivers and harbors bill for the further surveying of Miami's harbor, with the view of securing for Miami deeper, and it might be said, more water.

His proposition has no reference to the present project, except that it is supplementary to the plans now in process of completion, and means that when the deep water now planned for is secured, other plans will be ready for the deepening of the channel and the extension of basins and other conveniences which will be demanded as soon as the present project is finished.

A survey by government officials will be necessary for further construction and the extent of the appropriation, one hundred thousand dollars, indicates that the survey is to be extensive and thorough.

We may well hope that the provision will be retained in the bill all during the course of its passage and that the bill, itself, will be passed and receive the approval of the president before this session of congress adjourns.

The incident illustrates the care with which Senator Fletcher always looks after the affairs of his state, and Miami should remember his inestimable services to this particular port.

Come to think of it, there is a prospect that those million men, Bryan said would spring to arms between sunup and sundown, will be needed. Come on with your men, William.

Villa is said to have stated that the United States would yet "recognize" him. You bet it would. Why the United States would recognize Villa anywhere, with the trair going sixty five miles an hour.

The freeze, we regret to say, damaged tomatoes, strawberries and beans, but it didn't do a thing to the great crop of boomers.

Uncle Sam had no quarrel with the German people. His fight is against those who have always exploited the German people.

Moore Haven has blossomed out in other things besides record breaking vegetables. It has a new weekly newspaper, the Moore Haven Times, which will boost its great section with vigor. The new paper is edited by Will H. Stevens, its proprietor, which is a guaranty that the work will be well done at all times.

Unfortunately, there is no constitutional prohibition against the dual output of whining peace drivel, in a crisis like this.

UNAFRAID

This country is awaiting, waiting like the careful householder waits who knows that a storm is brewing and who is preparing for whatever may come.

Nothing better or finer has occured in this country, in recent years, than the instant response to the president's action in severing relations with Germany.

With a calmness characteristic of the American people they have faced the possibilities of a long, costly and bloody war without a quiver, and in supreme faith that whatever happens, this country would do its perfect duty.

We do not want war, but we recognize that the issues are not with us. They rest entirely with those who may have war if they want it, or peace if they will merely keep their promises.

But, nowhere, is there a definite feeling that we are going to escape. It is inconceivable, in view of the past two years, that Germany will recede from her announced purpose. In the execution of that purpose it is beyond the possibilities that some American ship, some Americans will not be destroyed, without excuse.

When that comes there will be only one thing for this country to do, and the country is fully determined to do that thing.

And, like the householder who providently provides for the coming blow, this country is already setting its house in order. It is putting well thought out plans for defense into effect, and is preparing in a quiet, but determined way, for the further eventualities that may ensue.

But beyond all that, this country is well prepared in its mind, for war, if it comes. It has faced the possibility and does not shrink. It realizes that there are things of more moment to the nation than mere ease and safety and it is prepared to make such sacrifices as are necessary to preserve its national traditions and its national sovereignty.

Without boasting, but unafraid, we await what the future has in store for us.

ALL MIGHTY BUSY

One of the most frequent complaints heard as to the activities of Miami, is that it is almost impossible to get men to attend committee meetings and the meetings of the various organizations, of which there are not a few in this city.

Civic associations, claiming large membership, meet night after night with just about enough members present to make quorums. Committee meetings are adjourned from hour to hour of from day to day, because men cannot be found to transact the business before them. In a measure, the fraternal organizations of the city make something of the same complaint, that they are not as well attended as they should be.

And the reason is not far to seek. The men of Miami are the busiest creatures in the universe. They are building up not only their own fortunes, successfully, but they are building up a great city, also successfully, and they really have not the time to attend to the multifarious duties thrust upon them by the demands for their services in this, that or the other line.

While this particular fact works against the immediate success of various organizations, yet there seems to be no remedy for the condition until matters quiet down and the rush is over in the upbuilding of the city, and that is going to occur sometime, but not in this generation.

The busy man accomplishes the most, even outside of his particular line, but the men of Miami are being loaded with many duties for which there is not time in which they can perform them.

But, after all, it is a pretty good thing that everybody in Miami is busy, even if they are too busy to attend lodge meetings and the gatherings of the civic associations.

PLEAS HOLT COMES BACK

If recollection serves well, Pleasant Holt, sometimes pleasantly called "Pleas" Holt by his critics, a gentlemen of considerable prominence in the state, is remarkably successful in being re-elected to office in Jacksonville, when we consider what is frequently said about him in some of the state newspapers.

Ordinarily, Mr. Holt is a very genial gentleman, stands well in the community where he resides, has an established reputation for honesty and uprightness, and yet during certain campaigns in the state no man in it has been more roundly abused than he.

Notwithstanding all the abuse heaped upon him, when Jacksonville wants anything accomplished or when the city is looking for a capable member of the city council, it always looks to Mr. Holt to do the thing wanted and always sends him back to the council, even when other councilmen fail of re-election.

Seemingly, the people of Jacksonville entertain quite a different opinion of the gentleman than do his critics over the state, and it is probable that his friends and neighbors are much better judges of what he really is than those who criticise and abuse him merely because he does not view certain so-called moral questions from just the same angle as they do.

It is estimated that the annual conventions of Knights Templar and the Order of the Eastern Star, to be held in this city the second week in April, will bring nearly a thousand people to Miami.

Newspaper talk does not seem to have had much effect on setting fires within the city, and the city council might try its hand at the suppression of a very dangerous practice.

Well, anyhow, by contrast we are certainly enjoying these days of normal weather, and we are beginning to feel more forgiving toward the weatherman.

Nineteen years ago Colonel Bryan gallantly enlisted to free Cuba. He is now unwilling that others should enlist to keep his own country free.

Governor Ferguson, of Texas issued a proclamation calling on the people of the Lone Star state to keep cool. They did. The mercury dropped to a point perilously near zero, in spots.

Besides keeping his powder dry, this is a good time for the American to keep the vocabulary gash in his faced firmly closed.

From west to east, and from south to north, the cry goes up, "we're with you, Woody, for all we're worth.

OBSERVATIONS

You Bet.

We don't know what
The weeks or years
May bring of joy
Or bring of tears;
But this is true,
Be sure of that,
We're with Woodrow,
And standing pat.
—Houston Post.

And now it appears that that leak was merely a newspaper guess, and a mighty costly guess to the guesser.

Bryan's peace piffle
Made nary a riffle.

Now is the time for all sissy men to stand together, accompanied by the sob sisters.

Aunt Maria told me 'at Uncle Silas wouldn't even look at a corset ad, endurin' of the cold snap.

'Nother Jolt For Jerry.

It will be noticed that, notwithstanding Jeremiah O'Leary's recent overtures, President Wilson sent for Colonel House when he wanted to talk matters over with a friend. —New York Telegraph.

It Is To Laugh.

Looks as though Count von Bernstorff might have to book his passage home by balloon.—Boston Transcript.

THANKS WOMAN'S CLUB

Editor Miami Herald:

I would like to express my appreciation of the hospitality extended by the Woman's Club of your city in throwing open their building for the use of the visiting public and for the cheerful fire they have kept burning on their hearth during the cold spell.

"May they live long and prosper."

A VISITOR.

AMY LOWELL

Amy Lowell, whose name has been coming to the fore of recent years as one of the most notable of the younger school of American poets, is 43 years old today. Miss Lowell is one of the leaders in America of the vers libre, or free verse, school of poetry, which has been of late years widely discussed.

She was born in Brookline, Mass., and is a member of the notable Boston family to which James Russell Lowell belonged, and also Percival Lowell, the famous astronomer, recently deceased, who was her brother. A. Lawrence Lowell, president of Howard University, is also a brother of Miss Lowell.

She was educated in private schools and spent later several years of study in France. She published her first volume of verse, "A Dome of Many-colored Glass," in 1912, attracting immediate attention. Her last volume, "Men, Women and Ghosts," recently published, has caused critics to compare her with Poe and place her very high among American poets of the day.

GREAT PARIS "MYSTERY" IS SOLVED

Plot in "The Hands in Black Gloves" Case Dissolves.

The "hands in black gloves" mystery was dispelled in the newspapers a few days ago.

It turns out that a score of children blackened each other's faces, emulating moving picture actors. The substance used to blacken the faces apparently infected the youngsters' tender skins, leaving eruptions.

Fearing to admit to their parents that they did it themselves, the children invented a fantastic story about two men wearing black gloves, who caressed their faces and pricked them with needles hidden inside the gloves. Frantic mothers, fearing it was the work of German spies, took the children to a hospital for treatment, while the police sought the miscreants. Sharp questioning caused the children to disclose the hoax.—Paris Cable to the New York World.

Trees of a special shape, used for umbrella handles, are raised in France, over 500 acres being devoted to this purpose.

PERSONAL NOTES

G. W. Ruth made $6,000 by farming 160 acres near Allentown, Pa., in 1916.

Maria Tambarro, aged 12, has been refused a marriage license in Sunbury, Pa.

Dr. Charles Hedinger, 95, is actively practicing medicine in Canton, Kan.

Dr. F. A. Golder, of Pullman, Wash., will go to Russia to get data for a history of Alaska.

H. H. Von Adelmann has renounced a German title to become an American citizen in Richmond, Cal.

Joseph Pieczykoweskicz and Aniela Bernaszedewicz were married in Wilkesbarre, Pa., the other day.

THE WAR

February 9, 1915.

United States sent note to Germany asking how neutral would be distinguished in war zone.

1916

Russians captured Uncioczko on Dniester, threatening Czernowitz.

Germans took 800 yards of French trenches near Vimy.

United States demanded from Austria apology and reparation for attack on Petrolite.

AIR FULL OF ALLIED PLANES

German Officer Admits Superiority of Foes' Fliers.

The persistency with which war correspondents in Germany inform us that the Teutons have the command of the air on the western front leads to some confusion as regards the status of aerial supremacy on that front, in view of the fact that the correspondents in back of the entente lines are just as certain that the air command has long been held by the allies.

Perhaps some light is thrown on this question by a letter written by a German officer of the 170th regiment, which fell into the hands of the British:

"You in Champagne are no longer in the witches' cauldron, on the brim of which we are sitting—always waiting the moment to fall in from one side to the other. It is turmoil here again. The air has been alive with aviators the last few days, and still more so with the heavy shells that have been flying over us and onto our poor comrades on our flanks and onto our batteries. The number of guns—and of the heaviest caliber—which England now possesses is uncanny, and the amount of ammunition they fire off is fabulous.

"In addition—what makes it so bad—the aviators are constantly over our lines. They point out our batteries so that they may be peppered, and are always attacking our captive balloons, which is the same as putting our eyes out. Meanwhile the air is black with aircraft, whereas our aviators—but of that why speak? It would be merely pouring water into the Rhine. We could save many thousand of lives if we had the English aviators and gunners."—Scientific American.

STARTS CRUSADE AGAINST THE VEST

"Gold Coast Taylor," of Harvard Calls It a Useless Article.

"Ted" Marks, known throughout Cambridge as the "gold coast tailor," is going to start a crusade against the "useless vest."

According to "Ted," it would be hard to invent anything more senseless as an article of apparel than a vest. Its thinnest part covers man's most sensitive spot, the spine, and over the chest, where there should be protection from the cold, the vest is cut decollete, he says.—Boston Post.

The United States bureau of fisheries now supplies over 4,000,000,000 fish specimens annually to different hatcheries.

ISLAND TO BE FOR HOMES IN BISCAYNE BAY

War Department Hearing Today To See Whether Any Valid Objection Exists

If no objection is made this morning at a public hearing to be conducted by Lieutenant Colonel W. B. Ladue at the Chamber of Commerce, the Miami Ocean View Company will build an island in Biscayne bay, two thousand feet west of the peninsula which lies opposite Miami, and eight hundred feet north of the proposed causeway which in time will connect Miami and Miami Beach.

The hearing is held by the war department to give such persons as may have sound reasons for opposing the construction of the island an opportunity to make their reasons known before the war department grants the permit.

At ten o'clock this morning the Miami Ocean View Company through an agent at Tallahassee, or one of its officials, will purchase from the trustees of the internal improvement fund of the state the floor of the bay on which the island will be built.

Permission has already been obtained from the board of county commissioners of Dade county for the right to connect the island with the causeway, J. N. Lummus having appeared before the board Tuesday, February 5th, for that purpose.

The island will be 2,600 feet long and one thousand feet wide and will lie parallel with the peninsula. It will be sub-divided into sixty lots which will be sold for buiding purposes.

It is the intention of the Miami Ocean View Company to make of the island one of the choicest residential properties in or near Miami and to so hedge it about with restrictions as to make it impossible for undesirable persons to build on any one of the lots.

No name has yet been decided on for the island, nor has the Miami Ocean View Company yet decided on all the restrictions for the protection of those who buy land there, but these questions will be decided within a short time.

The island will be about twice the size of Belle island, which lies opposite Alton Beach and serves as the terminal for the eastern end of the long Collins' bridge across the bay, and the western terminus for the short bridge.

LANDED

(Continued from Page One)

of the Metropolitan Street Car company, of Kansas City.

One of the largest catches of the season was made by a party of visitors on board the charterboat Snap Shot, Captain Green, yesterday, when twenty-one barracuda, three grouper and a large number of other fish were brought into the Royal Palm dock. The party included W. J. Birk, Miss Amelia Birk, Miss Louise Harder and True Steuer of Chicago and Elmer Garretson.

Captain Meyers, of the charterboat Cocoon, had H. Rodman and brother out on a fishing trip from the Royal Pald dock yesterdav and a number of fish were taken.

Lowe and Cooper, the local yacht brokers here closed a charter for the yacht Greyhound, which belongs to Captain Graumlich, and the yacht will leave shortly for Palm Beach and other points with Messrs. Gunnison and Gautier, two New Yorkers. The charter is for a period of about two weeks.

The yacht Seawolf was out with a party yesterday and returned to the city with two large amberjack, barracuda and other fish which were on exhibition at the Burdine Sport shop in the Hippodrome building last night.

Fishing from the charterboat Greyhound, off the reef, yesterday John Bindley and H. J. Heintz and other prominent Pittsburghers caught an eleven foot hammerhead shark which attracted a great deal of attention at the Elser pier last night.

Accompanying the party was Captain Charles Thompson, of big fish fame, who operated the harpoon in his usual accurate manner, and the big monster was soon landed and brought in to the pier where it will be kept all day today in order to give the public a chance to see it. The Greyhound was commanded by Captain Graumlich.

B. D. Mockabee, of East Orange, N. J., C. W. Brainard and James R. Post, of Cleveland, O., and J. P. Gager,

BIRTH CONTROL ADVOCATE SHOCKS LEGISLATURE.

MRS. AUGUSTA CAREY

When Mrs. Augusta Carey, secretary of the National Birth Control League, stepped into the New York State Assembly chamber in Albany with a bundle of phamplets describing the work ond aims of the organization many members listened to her. But Assemblyman Welsh was horrified. He arose to tell the speaker that a woman was circulating literature that would corrupt the gentle minds of the members, and he demanded that she be put out. Mrs. Carey, fearing the wrath of the Assembly, disappeared.

"But I wonder what on earth was the matter with the man?" she said.

LAND VALUES IN HEIGHTS OF RIVERSIDE

W. A. Otter Says "Might Sell Lot," But Would Put Money Back In Addition

There are few men better posted on real estate values and possibilities in Miami than the contractors and builders, and they have shown their faith in the future of the city by investing heavily in properties. Many of them have made considerable money by buying and selling and practically all of them own a number of lots now.

Mr. W. A. Otter, who has just completed the handsome Ralston eight story building, owns a lot on Twelfth street near Lawrence Drive, for which he paid $650 about three years ago, and when asked if he wanted to sell it yesterday, he said:

"I am not anxious to sell, but if I did the price would be around $2,000, and if I did sell I would put the money right back into lots in Riverside Heights, as I consider that one of the best residence sections in Miami.

"The Tatums are entitled to all kinds of credit for the splendid development work they have done this past year, and the immense amount of building in that section is entirely due to their efforts and the money they have expended, as many others have been induced to build by the handsome homes they have erected in the heights.

"The fine class of homes, the desirable people living in them and the first class improvements all through the property, along with good street car service and well paved streets, will make property in Riverside Heights gilt edge, and those who invest now will easily make a handsome profit within a year or two."

Mr. Otter is a conservative business man and his enthusiasm over Riverside Heights is another evidence of how everybody who is familiar with that section feels about this desirable property.

WATER SPORTS TONIGHT

There will be a program of water sports given at the Royal Palm hotel tonight, "even if it snows," Eugene McClure, manager of the casino, declared last night.

The program will include canoe tilting, and the tarpon fishing contest featuring Willis Cooling as the human fish, and an experienced angler at the other end of the line. The usual fancy diving and swimming races, greasy pole contest and other aquatic events will be included.

Owing to the severely cold weather last week the water sports announced for Friday were not given.

of Buchanan, Mich. ,were out on Captain George Deming's boat Alice, yesterday, and returned to the Elser pier with a big catch of kingfish. The party went to the kingfish grounds and were so successful that they propose to make frequent trips to the grounds during the season.

Captain J. W. Bell, a well known coast pilot and seafaring man of this city, has offered his services to the government in the event of a war with Germany. Captain Bell holds ocean master's papers and is qualified for any service that he may be called upon to do.

The Captain was for many years engaged in commanding ocean steamers up and down the coast and has visited many foreign ports during his long career, and should his service be needed he is well trained for the work.

T. T. Fishbourne and party were

DRINK HOT WATER IF YOU DESIRE A ROSY COMPLEXION

Says we can't help but look better and feel better after an inside bath.

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washings the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Men and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphated hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

FROM EVERYWHERE PEOPLE ARE HERE AT MIAMI HOTELS

Twenty-nine states and three foreign countries were represented in yesterday's hotel arrivals at nine leading hotels, indicating the cosmopolitan character of Miami's winter population.

During the past two weeks visitors have come from every state in the union and from half a dozen foreign lands.

The resident population of the city is made up in the same manner, of people from all the states and many foreign countries. There is scarcely a country on earth not represented in Miami's population.

A motor party composed of Matthew Weiler, Albert Mertz, Gustave Graner, William McIntosh, August Bollner and Herman Treiber of Newark, N. J., recently left that city for Miami and are now on their way here, according to announcement by a Newark paper.

out on Captain Ross' charterboat Juilet, yesterday and returned with a good mess of fish. The members of the party were delighted with the trip and propose to go again.

Fishing from the charterboat Waho Captain Moller, yesterday, Messrs. G. P. Snow and Elliott Cross, of New York, made a big catch of grouper, barracuda and amberjack. Some of the fish were large and attracted much attention at the Royal Palm dock.

Mr. and Mrs. T. A. Gessler and a party of friends from New York, were out on Captain Grossett's charterboat Angler, yesterday, and returned to the Royal Palm dock with a good mess of fish.

Colonel and Mrs. W. T. Durbin, of Anderson, Ind., have chartered the Snap Shot for a cruise in the vicinity of Fowey Rock lighthouse today. They will be accompanied by a party of friends.

A scald, burn, or severe cut heals slowly if neglected. The family that keeps a bottle of BALLARD'S SNOW LINIMENT on hand is always prepared for such accidents. Price 25c, 50c and $1.00 per bottle. Sold by Eagle Drug Co.

EXAMINATIONS BE HELD HERE FEDERAL JOBS

The List For February and March and Salaries For Places Stated

Announcement has been made by the secretary of the fifth civil service district with offices at Atlanta, Ga., of examinations to be held in Miami, and elsewhere in the district, during February and March, which provide opportunities for lucrative employment at entrance salaries ranging to $1,800 per annum.

Application blanks and additional information concerning them may be obtained from the local secretary at the post office or the district attorney at Atlanta, or from the United States Civil Service Commission, Washington.

Among these examinations are:

Biological assistant—February 27, 1917, $900-$1200. The age limits for this examination have been amended from 20 to 40 years.

Freight Rate Clerk—February 27, 1917, $100 per month. Vacancies in quartermaster department. Three years experience with railroad freight traffics, classifications, etc., required. Age 20 years or over.

Passenger Rate Clerk—February 27, 1917, $1000 per month. Vacancies in quartermaster department. Three years experience in general passenger or ticket auditing offices of railroads required. Age 20 years or over.

Sub-Inspector of Ordnances—February 27, 1917, $4.48 per diem. Vacancies in navy yards. Knowledge of the manufacture of guns, etc., required. Age 21 to 40.

Assistant Chemist—February 27, 28, 1917, $1,350-1,500. Four vacancies in New Jersey and others elsewhere. College graduation in chemistry including one year in practical organic chemistry required. Age 20 years or over.

Mechanical Draftsman — $1,000-$1,200. Applications accepted at any time as supply of eligibles is not equal to the demand. Vacancies in war department. Applicants must be college graduates or senior students in engineering or have had three years experience as mechanical draftsman. Age 18 or over.

Chief Petroleum Technicologist—February 26, 1917. $4,800. Vacancy in Bureau of Mines. Age 30-45. Announcement and application form 2118 will be sent on request.

Expert Rapio Aid—February 26, 1917. $6 per diem. Vacancies in aeronautic station, Pensacola, Fla. Age 25-45.

Apprentice Draftsman — February 27, 1917, $480 per annum. Vacancies in war department. Age 16-21. Announcement and application form 1312 on request. Opportunities for promotion.

Assistant in Assay Laboratory.—February 27, 1917. $1200. Vacancies in treasury department. Age 20 or over.

Junior Chemist Qualified in Fuels—February 27, 1917. $1020. Vacancies in Bureau of Mines. Applicants must be college graduates or senior students. Age 20 or over.

Laboratorian Qualified in Electrical Science—February 27, 1917. $3.60 to $4.24 per diem. Vacancies in navy department. Age 20 or over.

Library Assistant (Male and Female.)—February 27, 1917. 3.04 per diem. One to three years training required. Age 18-40.

Architectural Assistant in Forest Products. — February 27-28, 1917. $1500. Graduation in architecture and one year's experience required. Age 21 or over.

Hull Draftsman—February 27-28, 1917. $1500. Vacancies in Department of Commerce. Age 21 or over.

Laboratory Assistant Qualified in Petrography.—February 27-28, 1917. $1200-1800. Vacancies in Pittsburg, Pa., and elsewhere. Applicants must be college graduates or senior students. Age 20 or over.

Drink--- P-I-N-A-P-A

If you are suffering from indigestion try a bottle of PINAPA just before your meal; it will do you no harm; it may do you lots of good. In Cuba it is used by many families as a table drink instead of wine. Our sales in Havana, Cuba, commencing January 1st, 1916, up to December 1st, 1916, was over 300,000 cases.

This proves its popularity.

PINAPA is the pure juice of our Florida pineapples made into syrup and carbonated.

P-I-N-A-P-A

is our leader and sold under its own label. We also put up pure fruit juices under our Miami Ocean Beach Brand.

TRY OUR PRUNELA

Prunela is made from pure Prune juice syrup, flavored with a touch of vanilla, carbonated.

It is Delicious—Try It.

SWEET APPLE CIDER

Our Sweet Apple Cider is made of pure juice from the Apples made into a syrup carbonated.

FRUIT PUNCH

Our Fruit Punch is made of pure fruit juice syrup, flavored with a touch of lemon carbonated.

All the above drinks are pure fruit juice syrups carbonated and put up by the Pinapa Bottling Works, Miami, Fla.

If your child is pale and sickly, picks at the nose, starts in the sleep and grinds the teeth while sleeping, it is a sure sign of worms. A remedy for these parasites will be found in WHITE'S CREAM VERMIFUGE. It not only clears out the worms, but it restores health and cheerfulness. Price 25c per bottle. Sold by Eagle Drug Co.

United States Tires Are Good Tires

As shown by the rapidly-growing increase in sales of United States Tires.

As shown by the much greater proportion of sales increases of United States Tires during the past year as compared with the increase in automobiles during the same time.

Both facts are due to the thoroughly efficient anti-skid service and low mileage cost of United States Tires.

Where to obtain

United States Tires

'Nobby' 'Chain' 'Usco' 'Royal Cord' 'Plain'

A tire for every need of price and use

Miami Tire Co.

DEMOCRATS LEAD REVOLT OVER IMMIGRATION BILL.

REPRESENTATIVE J. L. BURNETT
REPRESENTATIVE CLAUDE KITCHIN

The president's veto of the immigration bill, which had been the pet measure of Representative John L. Burnett of Alabama through many sessions of congress, was the cause of the first serious overthrow of President Wilson's authority among the members of his own party in the House. Representatives Burnett and Claud Kitchin, the latter the democratic leader of the House, voted to pass the bill over the president's veto.

"TIZ" FIXES ACHING, SWOLLEN, SORE FEET

How 'Tiz' does comfort tired, burning, calloused feet and corns.

Good-bye, sore feet, burning feet, swollen feet, tender feet, tired feet.

Good-bye, corns, callouses, bunions and raw spots. No more shoe tightness, no more limping with pain or drawing up your face in agony. "Tiz" is magical, acts right off. "Tiz" draws out all the poisonous exudations which puff up the feet. Use "Tiz" and wear smaller shoes. Use "Tiz" and forget your foot misery. Ah! How comfortable your feet feel.

Get a 25-cent box of "Tiz" now at any druggist or department store. Don't suffer. Have good feet, glad feet, feet that never swell, never hurt, never get tired. A year's foot comfort guaranteed or money refunded.

SECOND DANCE OF THE BISCAYNE YACHT CLUB

The second of the very delightful dances of the Biscayne Bay Yacht Club was held last night in the gaily decorated main room of the club house and on the wide and canvas enclosed piazzas which double the floor space of the club. To the excellent and beguilding music of Stanage's orchestra the guests danced all evening or sat about on the piazzas enjoying the dancing by proxy. Later in the evening the usual refreshments were served.

The guests present last night were Commodore and Mrs. W. J. Matheson, Mr. and Mrs. Manning Burbank, Mr. and Mrs. Gaston Drake, Mr. and Mrs. E. G. Sewell, Mrs. Walter Flanders, Mr. and Mrs. F. B. Shutts, Dr. and Mrs. J. M. Jackson, Mr. and Mrs. E. C. Romfh, Mr. and Mrs. George Romfh, Mr. and Mrs. Hugh Matheson, Mr. and Mrs. W. B. Allen, Judge and Mrs. J. C. Gramling, Mr. and Mrs. Tom Koons, Mr. and Mrs. L. T. Highleyman, Mr. and Mrs. W. B. Day, Mr. and Mrs. W. W. Gates, Mr. and Mrs. John B. Reilly, Mr. and Mrs. Carl Fisher, Mr. and Mrs. R. M. Price, Mrs. Ila Watkins, Mrs. B. B. Tatum, the Misses Jane Tatum, Roberta Meade, Bess Burdine, Elsie Alexander, Marion Duncan, Messrs. Joseph Greaves, Earle Balch, R. L. Zoll, J. M. Hopkins, John Oliver, Robert Reimert, Harold Soper and many others.

GAY MILITARY BALL FOR N. Y. OLD GUARD

New York, Feb. 8.—The imagination falters when it attempts to foretell the grandeur and magnificence of gold lace and bubbling spirits which will be seen at the Old Guard ball at the Hotel Astor tomorrow night.

For ever so many years the ball has been one of the brilliant social functions of the winter in the metropolis. This year it is expected to set a new high mark for brilliancy and attendance.

Colonel A. L. Kline, who is celebrated for his veracity, says there will be nearly 10,000 guests.

State and city officials and officers of the army and navy will be present, together with delegations representing the veteran military organizations of numerous Eastern cities, including the Ancient and Honorable Artillery company of Boston, the Governor's Foot Guards of New Haven, the Minute Men of Washington, the Putnam Phalanx of Hartford, and the Worcester Continentals.

The members of these various organizations, clad in their picturesque uniforms, will take part in the grand military march at midnight. The Old Guard's 200 musicians will play for the march and dancing.

Carlisle, Pa., man uses a tractor engine to heat a hotel.

LAND SHOW WITH LITTLE OF FLORIDA

Half Dozen Counties of the State Could Have Carried Atlanta By Storm

FLORIDA DAY FEB. 12

Will Be Events Which Will Bring the State Into Some Prominence

That the state of Florida was very scantily represented at the Southeastern Land Show in Atlanta is a matter of regret to a special writer in the Florida Metropolis who, in a letter from Atlanta says:

"The Southeastern Land Show has demonstrated one fact that has often been mentioned among citizens of Jacksonville, and that is the need of more interest and co-operation on the part of people of Florida if they wish to see their state progress as others have done.

"When one visits the land show and sees the loyalty of all counties of Georgia represented here, and then sees the smaller representation of Florida and the single-handed work on the part of the few Florida representatives, the lesson comes home in a more convincing manner. The Southeastern Land Show should have been dominated by Florida, for though there are but three Florida exhibits to be found in the great auditorium, they are the objectives of all who visit the show day and night. The Lee county booth is in a most conspicuous position and well arranged, while the Duval county booth further down the center of the hall arrests attention from all who come in. The Palm Beach county booth also gets its share of visitors, and there are hundreds who stop to inquire of what is being done in Florida, while others pause to say that they are well aware of the wonderful possibilities of the state.

"Could there have been a half dozen counties of Florida represented here, the state would have been given some of the best advertising it ever had, for the crowds are eager to learn and more eager to say that they cherish a longing to make their home in the Land of Flowers.

Fine Corn Exhibit

"The Duval county booth is made conspicuous by a fine exhibit of corn, which is pyramided on the display shelf, while above, on the upright backing of the booth, ears of corn in red, white and blue ribbon form the words "Florida Corn." This is easily seen from either main aisle, and is very attractive. A display of oranges grown in Duval county along with fresh vegetables tells of the mild climate enjoyed in that particular part of the state.

"Advertising booklets of the county are distributed along with folders, and questions are answered by attendants at the booth.

"One of the things made prominent by the interest shown in Florida, is the fact that a Florida Land Show would no doubt prove a great and profitable attraction. Manager Clark, who is handling the detailed work of the Southeastern Land Show has declared his intention of investigating the Florida possibilities and if sufficient assurance can be secured will undertake to stage an exhibition in Jacksonville or other prominent travel-distributing point.

Florida Day February 12

"The management of the show has set February 12 as Florida Day, and it is expected several events will be arranged which will bring Florida into great prominence. One of the tentative arrangements is for a meeting and dinner at the Hotel Ansley in the evening to which all people of Florida and former residents as well as others interested will be invited. It is planned to have prominent Georgians make short talks, and several of Duval county's prominent men are expected here to speak for that section."

NEGRO DIVER DEAD WHILE UNDER WATER

Jim Cleare, a well known negro diver and waterman, died yesterday while under the water at the Purdy Boat works, Miami Beach, with a diving hood on.

Cleare had been following his calling for a great many years, and on numerous occasions had worn a diving hood.

When it was discovered that he was dead the first impression entertained by the persons near was that in some unknown manner he drowned, but later it was learned that there was no water in his lungs.

J. N. Lummus sent for his pulmotor and tried vainly for a long time to resuscitate Cleare.

A physician, summoned to ascertain if anything could be done to revive Cleare, pronounced him dead from heart failure.

Just before going down with the hood on Cleare remarked that in the event of trouble while under the water it would be a simple matter to unfasten the hood and come to the surface.

Tonight, Fair building, Trinity bazaar. Scolloped oysters, oyster stews made with fresh milk, salad, etc. Ice cream and cake. Fifty cents.

DRUGS EXCITE YOUR KIDNEYS, USE SALTS

If your Back is aching or Bladder bothers, drink lots of water and eat less meat.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

PRODUCTS OF GARDEN TO BE SHOWN AT FAIR

Dade County To Make Good Display In Spite of the Recent Freeze

The twenty-first annual Dade County Fair will take place as usual in the fair building during the latter part of February and the early part of March, regardless of the recent cold snap, and there will be an exhibition of Dade county vegetables at that.

This announcement, which was made by Dr. E. V. Blackman, last night, conveys the information that all vegetables were not killed in Dade county, and there will be a showing that will reflect credit on this county and south Florida.

Of course the vegetable exhibit will not be as elaborate as would have been the case had there been no frost, but there will be an exhibition, nevertheless, which will demonstrate to the public at large and the many visitors to the county that everything was not killed in the vegetable line, regardless of the fact that the recent freeze was the worst in the state history.

The program for the coming fair, which includes the premium list, left the printers yesterday and is one of the most interesting that has ever been furnished by the fair association.

Premiums amounting to about $3,000 are in the list of awards and the competition will be greater than ever before.

There will be a meeting of the Dade County Fair association today, when many details regarding the coming exhibit will be discussed.

The fruits of the county were not seriously injured by the recent cold, and this display will be greater than ever before in the history of the association. Particular stress will be laid upon the other departments at the coming fair, and these will be all that can be desired.

SALVATION ARMY NOT MEETING IN A TENT

Adjutant A. R. Henderson of the Salvation Army requested The Herald last night to state that he and the Army have no connection whatever with the gospel tent on Eleventh street.

"Owing to similarity in names," he said, "some people have an idea that the Salvation Army has moved into the tent. We have nothing to do with that tent meeting whatever. Our meetings are in our hall and on the streets."

E. C. DeGarmo has returned to Miami after an absence of six months in New York and Norfolk.

VALUABLE PREMIUMS WITH PURCHASES

RY. OFFICIALS CONFERRED ON HEAVY TRAVEL

Special Preparation To Handle Crowd That Will Soon Be Headed North

The Southeastern Passenger Agents' association, holding its bi-monthly meeting in West Palm Beach yesterday and Wednesday, discussed and adopted methods for handling the immense tourist travel which in a few weeks will be moving northward from Florida.

"Records show that the tourist travel in Florida was never so heavy as this season," W. N. Howard, of the association said. "The increase was noticeable as early as November, and in January the traffic to Florida coasts was more than 30 per cent heavier than any previous year."

Members of the association in attendance were:

T. C. White, general passenger agent, A. C. L., Wilmington, N. C.

W. A. Beeker, passenger traffic manager, and E. N. Aiken, general passenger agent, of the A. G. S. R. R. and C. N. O. & T. P. Ry., (now known as Southern Railway Lines West), Cincinnati.

W. W. Croxton, general passenger agent, and E. H. Fell, assistant general passenger agent, A. B. & A. Ry., Atlanta.

T. J. Robinson, general passenger agent, and H. L. Fell, chief clerk, C. of Ga. Ry., Savannah.

J. D. Rahner, general passenger agent, F. E. C. Ry., St. Augustine.

C. C. McMillin, assistant general passenger agent, Georgia R. R., Augusta.

C. B. Rhodes, general passenger agent, G. S. & F. Ry., Macon.

J. H. Brown, traffic manager, G. & S. I. R. R., Gulfport, Miss.

S. G. Hatch, passenger traffic manager, I. C. R. R., Memphis.

P. D. Pusey, general passenger agent, and C. D. Clarke, chief rate clerk, L. & N. R. R., Louisville.

H. C. Bretney, Florida passenger agent, L. & N., Jacksonville.

H. H. Rauth, assistant general passenger agent, M. & O. R. R., St. Louis.

W. L. Danley, assistant to traffic manager, W. L. Lightfoot, general passenger agent, and J. E. Bauman, chief rate clerk, N. C. & St. L. Ry., Nashville.

W. C. Saunders, general passenger agent, N. & W. Ry., Roanoke, Va.

W. L. Rohr, general passenger agent, N. & W. Ry., Chattanooga.

C. B. Ryan, general passenger agent, and W. L. McMorris, chief clerk, S. A. L. Ry., Norfolk, Va.

G. Z. Phillips, assistant general passenger agent, S. A. L. Ry., Jacksonville.

C. W. Small, division passenger agent, S. A. L. Ry., Savannah.

H. F. Cary, general passenger agent, Southern Ry., Washington.

G. R. Pettit, division passenger agent, Southern Ry., Jacksonville.

H. D. Boynton, chief rate clerk, Southern Ry., Washington.

C. E. Harman, general passenger agent, W. & A. R. R., Atlanta.

J. A. Higgins, assistant general passenger agent, A. & W. P. R. R., Atlanta.

Association officers present were W. N. Howard, of Atlanta, acting chairman and secretary; C. D. Wayne, of Atlanta, superintendent of traffic department, and G. D. Snow, also of Atlanta, assistant secretary of the organization.

A party of officials of the Canadian Pacific Railway, who are making a tour of the south, visited with the southeastern railway officials. Among them are Colonel Ham and Mr. Foster, of the general offices at Montreal, also Mr. Calder, assistant general passenger agent, of Winnipeg; Mr. Perry, general agent at New York, and Mr. Chesbrough, who was lately made general agent at Atlanta, a new office recently opened by the company.

A. B. Smith, general passenger agent of the N. Y. N. H. & H. Ry., was also an interested guest.

A heavy cold in the lungs that was expected to cure itself has been the starting point in many cases of disease that ended fatally. The sensible course is to take frequent doses of BALLARD'S HOREHOUND SYRUP. It checks the progress of the disorder and assists nature to restore normal conditions. Price 25c, 50c and $1.00 per bottle. Sold by Eagle Drug Co.

MOORE HAVEN A BUSY PLACE

Growers Expect To Realize Handsomely On Their Irish Potato Crops

The new hustling city of Moore Haven is a busy place these days, and acres are being prepared and planted to all kinds of vegetables, though particularly potatoes, for Moore Haven is making a reputation for potato growing that is hard to beat. Messrs. Hovey and Southard are ready to ship a large acreage of potatoes, and at the same time are preparing to plant another large acreage. There are several other large acreages planted, and the spring shipments from Moore Haven will be more than from many older settlements. Carloads of seed potatoes are arriving daily, and the docks at Moore Haven present a busy scene.

The Moore Haven potato is a large, firm, and perfect potato, and is being very anxiously sought after by the buyers. Many at Moore Haven are expecting the first year there to pay for their land, and more too, with their first crop of Irish potatoes.

Mr. W. B. Young, manager of Messrs. Hovey and Southard's potato farm, which has proven to be so successful and to have made such enormous returns, is enthusiastic regarding this season's crop there, and looks for record breaking prices for the crop. Mr. Young's practical and expert knowledge has been proven in his expert handling of the big acreage, and the exceptional success derived is very largely due to his efforts.

GRANDMA USED SAGE TEA TO DARKEN HAIR

She made up a mixture of Sage Tea and Sulphur to bring back color, gloss and youthfulness

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a 50-cent bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

This preparation is a delightful toilet requisite and is not intended for the cure, mitigation or prevention of disease.

AMUSEMENTS

Mrs. Vernon Castle In "Patria" at Paramount Today.

Mrs. Vernon Castle, the world's famous dancer and the best known woman in America, will be seen in her new photoplay, "Patria" at the Paramount theatre today.

"Patria' was written by Louis Joseph Vance, the famous author of a score of best sellers, including "The Brass Bowl," "The Bronze Bell," etc. "Patria" is a society drama that deals with preparedness, which is full of thrills and excitement. The story tells of Patria Channing, (Mrs. Vernon Castle), a beautiful society girl, left sole heir to America's largest munition works, and her splendid struggle against Baron Huroki, a wily foreigner, who is endeavoring to gain control of factory and the $100,000,000 trust fund left to Patria by her father. She is aided by Capt. Donald Parr of the U. S. secret service, with whom she is in love.

Mrs. Vernon Castle is supported by an all-star cast, which includes Milton Sills, Marie Walcamp, Warner Oland and Dorothy Terrace.

A private showing of "Patria" was given at the Georgian Terrace, Atlanta, Ga. Before a large and distinguished audience, composed of the most exclusive and representative people of the southern capital. The thrilling scenes of the great patriotic drama lifted the audience out of their seats. From all advance indications the Paramount theatre will do capacity business all day, on this wonderful picture.

Hall, New York; Mrs. Huffman, Mrs. Garrison, Mrs. Lammers, Battle Creek; Mrs. F. R. Luce, Detroit; Mrs. E. A. Hoxey, Mrs. William Everard March, Miami; Mrs. L. H. Mead, Charleston, W. Va.; Mrs. S. G. Runyon, Detroit; Madame Henriette Meyer, Boston; Mrs. Howard Radcliffe, Mrs. Charles Rowland, Toledo, Ohio; Mrs. Rodman Smith, Mrs. John Wesley Smith, Washington; Mrs. Charles F. Sayles, Mrs. G. B. Turner, Indianapolis; Mrs. John Vance, Chattanooga; Mrs. Charles Williams, Mrs. E. H. Williams, Chicago; Miss Mary Peabody Williamson, Cleveland; Mr. H. E. Whaley, Minneapolis.

The prizes, each wrapped in black and orange and tied with orange satin ribbon, were given for the highest, second highest and third highest scores, and there were prizes for ladies and gentlemen.

Refreshments were served at the conclusion of the game.

Mr. and Mrs. E. W. Swisher and Mr. and Mrs. Rollo Swisher, prominent people of Columbus, O., after a brief visit here, have gone on to Palm Beach where they will spend a few days before returning to their homes in Ohio. They have been on an extended visit to Cuba and intended spending some time in Miami. E. W. Swisher is a prominent banker of Columbus, and Rollo Swisher is a well known business man of that city. They are cousins of M. D. Swisher, the well known music publisher of Philadelphia, who has been spending his winters here for the past ten years.

CHILDREN'S PROGRAM AT MUSICAL CLUB

An elaborate program, with the special feature of some very charming aesthetic dancing by children, will be given at the Saturday morning meeting of the children's department of the Miami Musical Club at nine-thirty.

The musical events will be a number of piano solos, duets and trios, and the whole program promises to be most noteworthy. All are welcome.

W. C. T. U. MEETS AT WHITE TEMPLE TODAY

An especially important meeting of the W. C. T. U. will be held this afternoon in the White Temple. Plans will be made for the district convention to be held in the Redlands on March 6 at which Miss Neal, the state president, will be present. Plans will be perfected also for the prohibition banquet on the eight of March for Miss Neal in Miami.

The program for the afternoon will be featured by a talk by Mrs. T. V. Moore on the W. C. T. U., the pioneer of women's clubs, while Mrs. Rose Seeley will talk on the Americanization of the immigrant woman.

R. B. Stegall and wife and their daughter, Miss Ruth, of Chattanooga, Tenn., have arrived in Miami for a visit with Mr. and Mrs. H. R. Hudgens, at 417 Sixth street. Mrs. Hudgens is a daughter of Mr. and Mrs. Stegall. Mr. Stegall is car accountant of the C. N. O. & T. P. Ry. at Chattanooga, and is a frequent winter visitor to Miami. His admiration for this section is attested by the fact that he has invested here to some extent.

LINGER-LONGERS MET WITH MISS HEPKINS

Miss Ellen Hepkins gathered the members of the Linger-Longer Club at her home yesterday afternoon for one of the characteristically pleasant afternoon meetings of that club. With the informal good time over the pieces of fancy work the club fully earned its name.

The members present yesterday were Mrs. Hepkins, Mrs. F. K. Ashworth, Mrs. W. P. Brown, Mrs. Ralph Fuzzard, Mrs. L. D. Gates, Mrs. Gibbons, Miss Grace Jarrett, Miss Jeanette Lindstrom, Miss Dean and Miss Cassidy.

NEW YORK-NEW JERSEY SOCIETY MET LAST NIGHT

A very successful meeting of the New York and New Jersey society was held last night at the Chamber of Commerce at the corner of Eleventh street and avenue C, which over fifty New Yorkers and Jerseyites attended.

The meeting was both interesting and mirthful.

After quite an amount of discussion it was decided to hold a card party, at which refreshments will be served, next Thursday evening, the 15th, at the Woman's Club building at the corner of avenue B and Twelfth street.

The New York and New Jersey society cordially invites all New Yorkers and Jerseyites to attend the party which begins at 8 p. m. and spend both a memorable and pleasurable evening.

The all important Mr. Brown, chairman of the entertainment committee, will arrange a most interesting program for that meeting.

WILLIAM JENNINGS BRYAN EXPECTED NEXT SUNDAY TO TALK TO TOURISTS

William Jennings Bryan will conduct the Tourist Class of the Presbyterian church next Sunday morning in the Royal Palm park at nine-thirty. Two weeks ago at this class nearly one thousand people were present, so that arrangements have been made fully to accommodate at least as many next Sunday. Ushers will be provided.

If, for any unforseen reason, Mr. Bryan will not be able to take charge o fthe class, Mr. Witham, of Atlanta, who had the class a few Sundays ago, will substitute in his place.

MRS. LITTLE CAPTIVATES PALM BEACH AUDIENCE

The dramatic art of Mrs. William Vogleson Little is one of Miami's most particular boasts. So that the following critique of her Bibical interpretation presented in Palm Beach and published in the Palm Beach Post, is particularly pleasing to Miami:

"But once in a lifetime is one given the privilege of learning Bibical history in such a pleasing and wholly entertaining manner as was afforded by Mrs. William Vogleson Little's interpretation of "David of Bethlehem" in Poinciana Chapel Monday night. For two hours Mrs. Little held her audience spell bound, the sweet notes of the clarinet, the deep, solemn peals of the organ and the clear voices of the singers adding much to the dramatic effect.

"Mrs. Little's portrayal of the different characters was marvelous, her characterization of Saul in his wrath being especially splendid.

"Perhaps one of the most appreciated parts of the entertainment was the artiste's recital of the Twenty-third Psalm. In a voice whose quality cannot be described, she began: 'The Lord is my Shepherd, I shall not want," and not so much as a finger moved until the last note died away.

"To say that Palm Beach appreciated Mrs. Little is putting it mildly. Her understanding of the subject coupled with her dramatic powers gave to the audience that quite filled the church an evening of pleasure that it will not soon forget."

DEMONSTRATION IN HOME ECONOMICS

On Saturday in the assembly room of the Woman's Club Miss Maud Wallace will give a demonstration for the home economics department of leavening agents. This demonstration will begin promptly at two-thirty and will prove of much interest.

RECEIVED HIS PASSPORT

COUNT VON BERNSTORFF

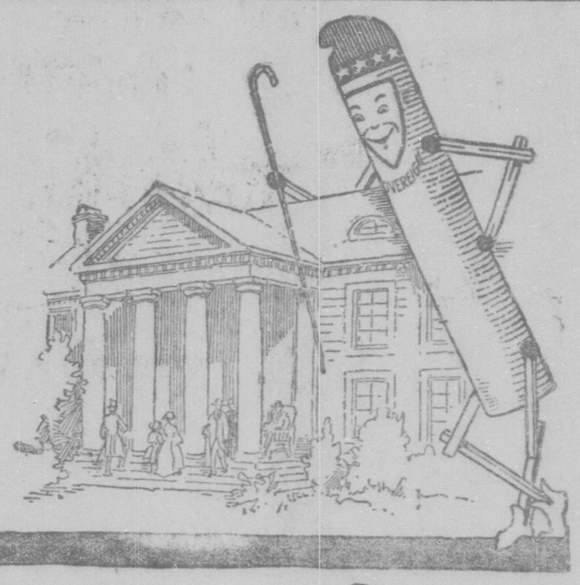
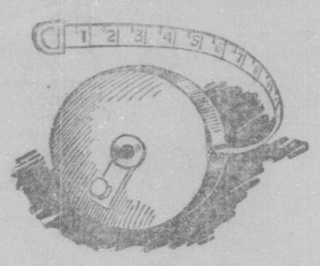
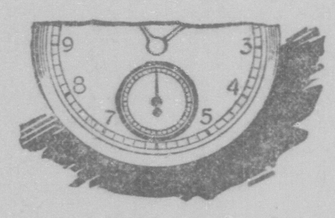
Family and Friends Count Most of All







We take his Measure— In a Minute— A Clean Slate—that's all—

They were a couple of fine old Southerners—you could tell that at a glance. They were talking about tobacco.

"Down South here, we judge a man by his family, don't we? If he is a gentleman, we take his measure in a minute, don't we? And, that's all we want to know, isn't it?"

"Say, friend," one said, "judge this cigarette the same way. He is a SOVEREIGN—that means he has blood and breeding—comes from the finest family—and has heaps and heaps of good friends here in the South.

"He is made of the choicest and sweetest and mellowest of Virginia and Carolina tobacco; he is raised like a true Southern gentleman—in a fine, clean, healthful home. Let us all stick to him SOVEREIGN—King of them all."

And this all must be true, men, because

You Folks of the South KNOW good blood!
You Folks of the South KNOW good tobacco!

That's why everybody likes me—why the men of the South are smoking me by the millions every day. My! it's fine to be so popular—to have so many friends. And, then here's something more to think about:—

I am guaranteed by The American Tobacco Co. —Buy me. If you don't like me return me to your dealer and get your money back. I have said it. A Southern gentleman is known the world over for keeping his word, and I have given you mine.

"King of Them All"

HAVE A JURY IN TRIAL OF FRANK RICE

After Ten Days of Preliminaries Case Now Ready For Legal Fight

DEFENSE BE STUBBORN

History of the Alleged Murder Which Followed Robbery of Homestead Bank

THE JURY

James E. McDonald, Fulford.
J. D. Chapman, Miami.
A Gossman, Princeton.
C. W. Beauchamp, Miami.
E. R. Holbrook, Miami.
R. L. Foster, Miami.
Charles E. Loop, Little River.
W. R. Porter, Larkins.
H. H. Wiggins, Arch Creek.
A. J. Cone, Miami.
G. W. Moody, Allapattah.
A. A. Stevens, Fulford.

A jury has at last been secured in the Frank Rice murder trial and the taking of testimony will begin at 10 o'clock this morning. The case has been attracting widespread attention on account of the notoriety given the alleged murder which grew out of the famous Homestead bank robbery on September 15 last.

The work of securing the jury has consumed ten days, during which about six hundred names were drawn before the necessary twelve men were secured to try the accused. This was due to the fact that the publicity given the case caused many of the veniremen to form fixed opinions as to the guilt or innocence of the prisoner, while a large majority of those called upon to serve as jurymen said that they were opposed to capital punishment.

The Case On Trial.

The trial, which will begin today, will be that of Frank Rice, who is charged with the murder of Charles Williams, one of the three members of the sheriff's posse who were killed at Everglade tank, a few miles below Florida City, on the Saturday morning following the bank robbery, and the state's theory is that the men accused of that crime killed the three sheriff's deputies in an effort to get past them to their boat which was tied in Jewfish Creek, near the railroad bridge.

Rice was indicted for the murder of Charles R. Williams separate from the other two deputies, while Hugh Alderman was indicted on a similar charge, and the two men are to be tried separately.

A Bit Of History.

The Homestead bank robbery, which occurred in broad daylight on the afternoon of September 15, is still fresh in the minds of the people of Dade county.

On that afternoon four men hired an automobile and were driven to Homestead where they drew up in front of the Homestead bank. While two of the men remained on guard in the car the other two entered the building and held up the officials of the bank at the point of a revolver and took about $6,000 in cash and made away with it.

Taking the booty to a point a few miles south of Homestead, the four bandits securely bound the automobile driver and were soon lost in the woods.

The sheriff was at once notified and organized a posse and every possible point of escape was watched. The sheriff's deputies guarded all points along the railroad south of Homestead in order to prevent the escape of the men. The officials finally located a boat loaded with supplies and, after disabling this, a close watch was kept at Everglade tank in an effort to prevent the men from passing that point.

It was past midnight on the Friday after the shooting that the members of the posse, who had been stationed in one of the cottages, near the tank, were approached by a young man who quietly asked for a cigarette, and suspicion at once rested upon him as being one of the four men wanted.

It was finally decided to approach this individual and as the posse did so another man appeared from behind the tank and ordered the officers to stop. The shooting then followed and three of the posse were killed.

Finally, the four men who were wanted escaped from the posse and after a two weeks' search they were located on the west coast, near Chokoloskee.

Leland Rice, a brother of the man on trial for murder, was shot dead by Rolly Wiggins, a fisherman, while Frank Rice was wounded by another fisherman and was at the point of death for many days afterwards.

Hugh Alderman, another one of the alleged bandits, finally gave himself up after his companion, Jim Tucker, was drowned.

Stubborn Defense.

The two accused men will be ably defended at their coming trials on the charges of murder. Their relatives have retained Judge George A. Worley and Penney & Penney as their counsel, and these lawyers will make a determined effort to acquit them of the murder charge, contending that they did not commit any one of the murders at Everglade tank.

COLLISION MAY PROVE TO BE FATAL

George Boles, Resident of Twelfth Street Extension, At City Hospital

George Boles, who resides on Twelfth street extension, is lying in a precarious condition in the city hospital as a result of a motorcycle accident at an early hour yesterday morning. He was riding home on his machine when he ran into the rear end of an automobile and fractured his skull. The injured man was taken to the city hospital in an unconscious condition and an operation was performed. Physicians at the hospital said yesterday that the man has a slight chance for recovery, although his condition is considered serious. Last night the indications were that the injury would prove fatal.

CHRISTIAN SCIENCE LECTURE

Christian Scientists of Miami, and visiting members of that church, are anticipating a great treat at 3 o'clock next Sunday afternoon when, in the Central school auditorium, George Shaw Cook, C. S. B., will deliver a lecture to which the general public is invited. Mr. Cook is a member of the board of lectureship of the Mother Church—the First Church of Christ, Scientist, in Boston.

ANNOUNCEMENT

Dr. John L. North wishes to announces to his friends the removal of his office to the Third Floor of the New Ralston Building, on Avenuue C.

BIG STABLES PROPOSED AT LITTLE RIVER

Winter Quarters For Valuable Race Horses—Prepare For Spring Trotting Seasons

The proposed winter stables of E. J. Schwarz, of Newark N. J., which are to be built near Little River, will be larger than at first contemplated, according to a statement by Mr. Schwarz yesterday.

Since the announcement that he had purchased the property for the purpose of building a winter quarters for his large stables of race horses, Mr. Schwarz has met a number of owners of fine blooded stock who have signified their intention of bringing their horses to Miami next winter, and it is very probable that quarters will be arranged for these animals.

"I think Miami is the finest place in the world to prepare horses for the spring trotting season," said Mr. Schwarz yesterday, "and I propose to build stables for at least 150 horses that I know will be sent here, and it may be possible that I may have to enlarge upon my present plans."

Mr. Schwarz has met a number of prominent men here who own fine horses and several of these have expressed a willingness to winter their stock in this climate hereafter.

In addition to this, Mr. Schwarz is in communication with several owners of the largest stables in the country and he is sure that he will interest many of these in his proposition. These horses are at present in a cold climate where they are subject to pneumonia and other ailments arising from an extreme cold weather, and the benefit that will be derived by bringing the animals to a mild climate will be very material.

Since purchasing the forty acre tract from the Winfield Investment Company last week Mr. Schwarz has arranged with architects for plans for his stables and a half mile track where the horses will be trained all during the coming winter for the following spring. Work upon the proposition will be begun some time in the early spring and the buildings and track will be in readiness by next November.

MIAMI BEEF COMPANY

GO EASY ON TAXES IS THE ADVICE GIVEN BY TAX COMMISSION

The state tax commission has sent out the following notice to all tax assessors of the state:

"To the Tax Assessors of Florida, Gentlemen: From reports coming in it appears that the recent freeze has done untold damage to the fruit and vegetable industries in the state, as well as to other crops, and at present, the full extent of the injury is not known, and, this is to advise you to use caution in fixing your valuation of property for this year, as to do otherwise might work a great injustice to the taxpayers, as well as to the state and counties. Therefore, we ask that you delay action in fixing values until the extent of damage can be approximately estimated.

Yours truly,
"TAX COMMISSION."

California may have a law to permit absentees to vote by mail.

VOL. 7; NO. 68. MIAMI, FLORIDA, FRIDAY, FEBRUARY 9, 1917. PRICE FIVE CENTS

PAPER MANUFACTURER INQUIRING INTO THE RAW MATERIAL HERE

A. B. Smith, an Illinois paper manufacturer, has written to E. V. Blackman, chairman of the agricultural bureau of the Miami Chamber of Commerce for information relative to the possibilities of establishing a paper manufacturing business here and the chance for success from the commercial view point.

The letter has been referred to Secretary Livingston for reply and the desired information will be given.

Mr. Smith announced his intention of coming to Miami to investigate personally the native grass and other materials from which it is possible to make paper.

The Chamber of Commerce has received several similar communications recently, indicating that paper manufacturers are looking toward Florida to provide the means for relieving the present acute conditions of the paper market.

It has long been believed that saw grass, palmetto and other fibrous plants produced here or growing wild can be made into excellent paper for some purposes, and that paper can be made from them in commercial quantities at a cost that will enable the manufacturers to reap a handsome profit on their outlay.

Aerial propellors driven by portable motors have been placed on the market for bicycles, canoes and ice yachts.

TAMPA CROWD ABOUT READY TO COME OVER

Motorcade To Miami Next Week —Will Join Legislative Party In the Everglades

Tampa, Feb. 8.—Plans for the motorcade of Tampa business men to Miami and the Everglades next week were discussed at the board of trade when the committee and others interested in the trip held a conference with Herman B. Walker, of Fort Lauderdale, who came here Saturday as the representative of a special joint committee of the Miami chamber of commerce, and the Fort Lauderdale board of trade, to inform the local committee more fully as to Everglades matters, and to learn definitely as to the plans of the Tampa contingent.

About half the members of the state legislature, Mr. Walker said, have accepted the invitation extended by Representative W. H. Marshall, of Broward county, to inspect the Everglades, and additional acceptances are coming in daily. It is expected that a majority of both the senate and house of representatives will be members of the party that will spend three days on board boats, viewing the Everglades canals, settlements and swamps.

While the trip of the Tampa party was not originally proposed to be in connection with the legislative visit, the fact that the two dates were in such close proximity suggested the desirability of combining the parties, or at least of giving as many of the Tampa visitors as cared to do so, a chance to join the legislative party and make the trip to Lake Okeechobee, Okeelanta and Moore Haven.

"Our people," said Mr. Walker, "are greatly interested in and encouraged by the interest displayed by Mr. Wall and other Tampa business men in the movement to speed up and finish Everglades drainage. The project is so big, so important, and so fraught with the promise of big things for Tampa, as well as for all the other towns and cities in close proximity to this great undeveloped empire of the Everglades, that we hope a more complete understanding of the drainage situation will aid in bringing about even closer and better appreciation of the mutual interests and welfare of the east and west coast of south Florida than now exists, and will lead to hearty co-operation in all matters in which there is a common interest at stake.

"Everglades drainage means to bring under settlement and cultivation nearly 4,000,000 acres of the richest lands in the United States. It means increasing the population of south Florida by at least a million people within ten years after the lands are habitable and cultivable. It means multiplying several times the taxable valuations of all the south Florida counties in which there are overflowed lands that will be benefitted by drainage. It means highways and railroads connecting the east and west coast at all points, and intersecting one of the most intensively settled and cultivated farming communities in the world. It means lower cost of living, new industries and enterprises, bigger population, more tourists and homeseekers, increased real estate values and greater prosperity for every part of south Florida.

Want Drainage Out of Politics.

"Everglades drainage operations have now been in progress, after a fashion, for ten years, and the work is about ten per cent finished. We are trying to have this work taken out of politics and put into the hands of practical, competent business men who will be on the ground, will not be burdened with a thousand other things to look after, and will have the authority to put the financing on a sound basis, and complete the work without further delay. We know that if the people of Tampa and Hillsborough county once understand this situation, appreciate its possibilities and join us in this fight, we will win out, and every section of south Florida will benefit wonderfully in the near future."

MARRIAGE THE HARDER JOB

I heard a girl in an elevator the other day discussing with a sympathizing friend her differences with a floor walker.

"Aw," she said, "I don't have to take any more sass off'n that gink. I'm goin' to quit here, anyhow. I'm goin' to be married. No more work and no more bossing for me."

Any girl of her mental caliber who enters the married state is walking right into the hardest job she can ever hold down in her life, and totally unequipped for her position. Inside a year, if she is as poor a wife as she has been a shop girl, there will be another man hanging around the corner saloon trying to forget in a glass of cheap beer the confusion and the bad food in the flat at home. When she gleefully announced that she was going to stop work, the thought of the meals, the cleaning and the laundry had evidently not occurred to her. And the floor walker doesn't live who can hand out orders like a husband. You have to take them from a husband, too, for you cannot quit your job in matrimony as easily as you can in a shop.—Elizabeth Sears in Harper's Magazine.

SOME MUDDLE ABOUT AUDIT IN KEY WEST

Taxpayers Insist On Having A State Official—Council Acts Otherwise

Key West, Feb. 8.—The Journal says: A letter registered and insured with a Tallahassee designation left this city Monday. It contained a request signed by four hundred of the tax paying voters of Key West asking that the state have the books of the city audited. Under the Florida laws it is mandatory on the state authorities that this request be granted. ed. Within a short time auditors from state will reach this city and take the books and records in charge and give them a thorough audit. IN THE MEANTIME—

The city council disregarding the will of the people have engaged the firm of Charles Neville & Co. of Jacksonville, Savannah and Birmingham to do a like work. O. M. Ezell, representing that firm arrived in the city and commenced work.

What This Means.

This means that there will be two audits of the city's books. One by the state and one by private certified accountants. Realizing the necessity for investigations of this kind the legislators of Florida have made it possible for an audit at a minimum expense. Displeased with the manner in which affairs were being conducted and to use a polite phrase SUSPICIOUS OF THE WISDOM being displayed by some of the officials citizens who have their all on this island and who are paying heavy taxes to the city determined to know where and how the city's money was being spent. With this intent a petition was circulated that advantage might be taken of the economical way provided for an audit by the state. The city council, while this petition was being circulated passed resolution in which they said owing to the best interests of the city they would have an audit either by the state or private accountant and forthwith employed the private accountant.

Who Takes Precedent.

Now a tangled web has been woven There will appear on the scene a state auditor if all goes well, about the time accountant of Neville and company get interested in the work. They will then be compelled to sit idly by until the state finishes the audit. During these idle days money to the tune of about twenty-five good round dollars of the tax payers money, very little of which is derived from members of the council will be going from the city to the coffers of Neville & Company. When the state finishes the private accountants will pick up the work where they left off and finish their work.

Rather good pickings for Neville and Company but just a little rough on the taxpayers of the Island City.

From France comes a two-pronged hat pin, the prongs being so shaped as to act as springs to hold it in place.

Demands for telephone service in Japan are about 150,000, ahead of the government's ability to supply equipment.

TO DODGE MUD AUTO OWNERS USING RAILS

Officially Advised To Ship Cars Past Bad Sections In Three States

Autoists who contemplate traveling from here or anywhere over the Dixie Highway between Nashville and Chattanooga and between Huntsville, Ala., and Chattanooga, Tenn., or Rome, Ga., are advised to ship their automobiles between those points.

Supplemental road bulletin received yesterday from the headquarters in Chattanooga, says:

"Heavy winter rains have erected an almost impenetrable barrier between Nashville and Chattanooga, Tenn., and between Huntsville and Chattanooga or Rome, Georgia. Tourists going south over the Dixie Highway are advised by all means to ship their cars between these points. A committee of the Chattanooga Automobile club and of the Dixie Highway association, in the official car of the association—an Overland six, seven passenger car—has been engaged in scouting out all possible roads in order to find a detour which could be used while the Dixie Highway between Nashville and Chattanooga is in course of construction. They were able to negotiate all of the roads undertaken, but their observation of the experiences of parties of tourists from the north, indicate that the difficulties which must be overcome are too severe to warrant any one attempting to travel them before these roads have had an opportunity to thoroughly dry out.

"During the past week fully fifty per cent of the tourists using any of these routes have been pulled out one or more times and their mileage record limited to fifty miles a day or less, in addition to the motor troubles encountered as a result of the tremendous strain placed on the cars.

"How long this situation will last will depend on the weather conditions. It is hardly possible that there will be much improvement during the remainder of January and February. The scouting trips were made by Ernest W. Holmes, of the F. W. Holmes Co.; Fred Cantrell, of the Fred Cantrell Company; E. D. Reed, general superintendent of the Chattanooga Railway and Light Company; John E. Lovell, of the Hotel Patten management, and V. D. L. Robinson, secretary of the Dixie Highway association.

"The present difficulties to traveling through Tennessee, northern Alabama and sections of Georgia across the barriers mentioned are materially enhanced by the amount of construction going on. Newly graded roads, which the counties have not had time to surface, are much harder going in wet weather than the old trails before they were improved. The grading on these stretches has progressed to such an extent that it is reasonably certain these sections will be surfaced, and that it will be possible to travel these roads in some degree of comfort in any kind of weather by summer or fall of this year. The Dixie Highway between Nashville and Chattanooga, as well as a few sections of the highway in Georgia, have been provided for and will be opened as a well surfaced connected road from Nashville, Tennessee, to the Florida line in that time."

HITS THE NEWSPAPERS

Milwaukee Sentinel.

The constitution of the United States expressly provides that congress shall make no law abridging the freedom of the press.

That inhibition to the contrary notwithstanding, a bill has been recommended for enactment by the present congress designed to abridge the freedom of the newspapers in the matter of selling their advertising space.

The bill in substance forbids the use of the government mails to all newspapers containing advertisements of the products of brewers, distillers, or vinters. For using the mails in violation of the proposed act, the responsible conductor of the newspaper is made liable to fine or imprisonment or both.

Whatever the intention of the bill, it is the business of the newspapers that is directly hit, not that of the brewers.

Practically a newspaper is forbidden to sell its commodity, namely, advertising space, to the brewer. Its freedom to do business and make its living is to that extent abridged. In so far as the principle and intention is concerned, the bill might as well strike at the business of the farmer by forbidding him to sell hops or barley to brewers.

It must be understood that the inhibition of the bill is not limited to newspapers, published in dry territory, but covers territory where the brewing of beer is recognized as a lawful branch of manufacture.

Aside from its business aspect, the political motive of the bill is clear.

It plainly regards the advertisements in question as expressions adverse to the prohibition side of the nationwide discussion of the question which has now got prominently into the field of politics as a political issue.

It aims to stifle at least that contribution to the discussion.

From that it is only a few steps to suppressing all expressions in newspapers unfavorable to prohibition by forbidding the use of the mails to newspapers containing articles on that side of the question which certainly is an open and debated one. If that sort of law is permitted to get a foothold in the United States we shall be in a fair way toward Russianizing or Prussianizing the American press in the interest of this or that brand of intolerance or fantaticism.

It is a senseless bill.

The press should be an open forum of discussion of this question. So far as we know or are concerned, its columns are as open to statements from one side as the other, and the prohibitionists certainly can not complain that they have been shut off from their share of newspaper publicity.

They should rely upon argument and persuasion, and not try to resort to suppression. That they are clearly trying to do at the expense of the newspapers. Any one with even half an eye can see that this is poor strategy for themselves.

Their bill does not hit the brewers, whose advertisements are in fact a matter of competition among themselves and an element of production cost; but it does hit the newspapers.

It does not mean preventing the brewer from selling his product, but it does mean preventing the newspaper publisher from selling his product.

It abridges the freedom of the press to do business and to publish matter supposed to be adverse to one side of a political issue. That we conceive it has no right to do under the constitution.

In theoretically hitting the brewers by actually hitting the newspapers, congress will find that it has taken the stick by the wrong end.

END INDIGESTION OR STOMACH PAIN IN FIVE MINUTES

"Pape's Diapepsin" makes sick, sour, gassy stomachs feel fine.

Time it! In five minutes all stomach distress will go. No indigestion, heartburn, sourness or belching of gas, acid, or eructations of undigested food, no dizziness, bloating, foul breath or headache.

Pape's Diapepsin is noted for its speed in regulating upset stomachs. It is the surest, quickest and most certain indigestion remedy in the whole world, and besides it is harmless.

Millions of men and women now eat their favorite foods without fear—they know Pape's Diapepsin will save them from any stomach misery.

Please, for your sake, get a large fifty-cent case of Pape's Diapepsin from any drug store and put your stomach right. Don't keep on being miserable—life is too short—you are not here long, so make your stay agreeable. Eat what you like and digest it; enjoy it, without dread of rebellion in the stomach.

Pape's Diapepsin belong in your home anyways. Should one of the family eat something which don't agree with them, or in case of an attack of indigestion, dyspepsia, gastritis or stomach derangement at daytime or during the night, it is handy to give the quickest, surest relief known.

VIRGINIA GIRL BRIDE OF YOUNG MILLIONAIRE

New York, Feb. 8.—The wedding of Miss Nancy K. Perkins, daughter of the late Mr. and Mrs. T. Moncure Perkins, and Henry Field, of Chicago, was celebrated today at the home of the bride's aunt, Mrs. Charles Dana Gibson, in East Seventy-third street.

The marriage was celebrated in the drawing room of the Gibson home in the presence of a small gathering of relatives and intimate friends of the pair. Bishop Patrick J. Hayes, of St. Patrick's cathedral, performed the ceremony. It was a mixed marriage, Mr. Field being a Roman Catholic.

The bride entered the drawing room with her uncle, Charles Dana Gibson. She was attended by her cousin, Mrs. George B. Post, Jr., and Miss Flora Whitney. Marshall Field, 3d., brother of the bridegroom, was his best man. The ceremony throughout was attended with the utmost simplicity, owing to the recent death of the bride's uncle.

The engagement and marriage of Miss Perkins and Mr. Field has attracted wide attention because of the beauty of the bride and the wealth of the young bridegroom, as well as the social prominence of both families.

The mother of the bride was the eldest of the Langhorne sisters of Virginia, all of whom have enjoyed international celebrity for their beauty. The second of the sisters is Mrs. Charles Dana Gibson, wife of the noted artist, The third sister, at her second marriage, became Mrs. Waldorf Astor. The fourth married Reginald Brooks, from whom she was divorced two years ago, and the fifth, Miss Nora Langhorne, married Paul Phipps, an architect of London. All have been portrayed by Charles Dana Gibson.

Mr. Field, the bridegroom, is one of the two grandsons of the late Marshall Field, multi-millionaire merchant of Chicago. With his brother, he ultimately will come into possession of the bulk of the Marshall Field estate, which has been estimated at nearly $200,000,000.

Realty Securities Corporation

BY DAMMERS & GILLETTE
Real Estate Auctioneers of
47 West Thirty-Fourth Street, New York.

Absolute Auction Sale

AT

2:30 P. M. Saturday

February 10th

Every Lot in the Beautiful Subdivision Known as

Royal Park

Just beyond the **Million Dollar Development** of the Lawrence Estate, where lots sell from $600 to $1,200 each.

Royal Park is on West Twentieth Street, within thirty feet of the city limits, city comforts and conveniences without **City Taxes.**

It is on the Tamiami Trail, the road which runs directly westward across the state, and will soon become as popular as Biscayne Drive.

JITNEY SERVICE
Six Times a Day

It is about the same distance from the **Court House** on the West as Broadmoor is on the North, where lots are selling from One Thousand to Thirteen Hundred Dollars each.

The trend of the city's growth is westward. The building records show more new homes west of the river than all other sections of the city combined. And the time to buy is when the owner is anxious and must sell, and is willing to make sacrifices.

Some of these with **Bearing Grapefruit** and **Orange Trees.**

EASY TERMS

20 per cent down at time of sale, 30 months' time to pay balance. 5 per cent Discount for all cash.

Free Abstract Given—Title Perfect—Automobile Ride to and from Auction Sale. Everyone Welcome.

Automobiles will leave from office of Royal Palm Transfer Co., corner of Twelfth Street and Avenue B (under Halcyon Hotel) between 1:30 and 2 p. m. sharp.

FOR SALE—Three lots, 50x100 feet each, on corner 10th street and avenue Q. All three lots for $1,500; easy terms. Address Box 5-B, care Herald.

DIXIE HIGHWAY TRACT—To those residing permanently in Miami and to tourists here for the season, J. A. Gates & Son have a message: We have formulated a plan whereby we can greatly reduce the price of real estate to purchasers, cause the business of real estate to be more highly respected, and to be more enjoyable and satisfactory to those engaged in the traffic. We purpose to sell lots in a tract by employing hired salesmen just as a merchant sells goods in his store by clerks in his employ. Parties visiting our Dixie Highway Tract, now being offered, will be shown over the tract by our salesmen. A tag bearing the lot and block number and price of lot is attached to a stake placed in front of each lot to be detached by purchaser and presented at office of tract owner, where papers in settlement will be drawn. We can, we believe, by this method save the purchaser 25 per cent or more and complete the transaction most expeditiously and satisfactorily. We especially call attention to location of our Dixie Highway Tract. It adjoins the Charles Deering place on the north and extends from Dixie Highway to Bay View Ave., overlooking the Bay. All inside lots are fenced at a uniform price of $195 each, corners $300. If in this connection you note the fact that lots in Flander's tract which adjoins the Charles Deering place on the south, are held at prices ranging from about $3,000 to $5,000, and are on lower land, you will readily see that lots in Dixie Highway will certainly appreciate rapidly in value with the growth of Miami, and that you will make no mistake in buying now. Is it unreasonable to expect an advance of one hundred per cent in values within one year? May we not urge those of our home people thinking to secure a lot while cheap in price and most attractively located, to select now? May we not urge tourists seeking a place for building a winter home to visit us; and may we not especially urge builders who want to get a bunch of lots on which to build houses to sell or rent to select now while the selecting is good—the bunches are unbroken. Dixie Highway Tract has many advantages, such as electric lights, telephones, jitney busses about half hourly, ice, meat, groceries delivered daily, daily mail delivery, high school churches, literary clubs fraternities, and other advantages of a happy and cultured community. J. A. Gates & Son, 235 Twelfth street. Telephone 316.

FOR SALE—Last opportunity to get one of Dr. Burkhart's famous Winter Gardens little truck farms; only three left; $350, 10 per cent. down; balance monthly. Full information 205 12th street. Ask Berryman, phone 429.

FOR SALE—Ocean Beach lot, a corner facing east on Atlantic Boulevard. Price $1,200. W. C. Gibson, room 203, Ralston Bldg. Phone 1195-X.

FOR SALE—A few Ocean Beach lots, very cheap. "Ask Sam." Sam T. Young, 231 12th street. Phone 739-R.

CARNIVAL CROWDS AT TAMPA

Tampa, Feb. 8.—Hotels and boarding houses are filled to overflowing with tourists and other visitors who, during the remainder of this week, will share with the local population in the enjoyment of the pleasures and festivities attending Tampa's annual carnival celebration. The pageant of Ye Mystic Crewe of Gasparilla, which organization is to make its annual invasion of the city tomorrow, promises to be the most brilliant in its history. The Gasparillas will come up the bay and river in a schooner flying the black flag of piracy, the members of the crew picturesquely attired in costumes of 150 years ago. The pirate chief, or king of the carnival, will be crowned at the grand ball tomorrow night, when his identity and that of the queen will be made known.

Of recent inventions is an electric heater that can be inserted into any household water tank to heat its contents.

Bargain Home Place

Automobile service to show you. Ten acres all tillable now ready to grow high priced winter vegetables. One crop can be made to pay for the land. Some bearing grapefruit trees and other fruit trees on the place. Fronting on good roadway, near two towns, not far from navigable waterway. M. L. & D. Co., second floor Tatum Bldg., 212½ Twelfth Street, phone 82, P. O. Box 35. James M. Powers, Secretary.

LEGAL NOTICES

NOTICE OF ANNUAL STOCKHOLDERS' MEETING MIAMI TELEPHONE COMPANY.

The annual meeting of the Stockholders of The Miami Telephone Company will be held at the offices of the company, 315-317 Thirteenth street, in Miami, Florida, at 3 p. m. on Tuesday, February, 13, 1917, for the purpose of electing Directors for the ensuing year and for the purpose of transacting such other business as may properly come before the meeting.

G. C. FRISSELL,
President.

Jan. 12, 19, 26, Feb. 2, 9.

IN THE COUNTY JUDGE'S COURT DADE COUNTY, FLORIDA.

In re Estate of Minnie Fitzgerald, Deceased.

To All Creditors, Legatees, Distributees and all Persons having Claims or Demands against said Estate or to all Persons Concerned:

You, and each of you, are hereby notified that I will, on the fourteenth day of February, A. D. 1917 apply to the Hon. Samuel J. Barco, Judge of said Court, for Letters of Administration on the estate of Minnie Fitzgerald, deceased.

GEORGE H. PARRY.

1-12-19-26—2-2-9.

CEMENT SHOW IN CHICAGO

Chicago, Feb. 8.—The fifty-seven or more varieties of the practical utilization of cement and its products were placed on public view in the Coliseum at the opening of the tenth annual National Cement show. The show is by far the largest and most comprehensive of its kind ever held in this country. Everything from "poured" houses to cement furniture are included in the display. The exhibition will continue through the coming week. In connection there will be a series of meetings and conferences representing the various branches of the industry.

About the hardest thing in the world to find is a self-made man who is ashamed of the job.

PRIVATE YACHT "OSCEOLA" For $3,000

It seems ridiculous, but we need the money.
She could not be built now for less than $4,000.
43 feet long, 9ft. beam, and only draws 40 inches.
Fine galley, well appointed, enameled throughout, electric lights, ice box, toilet, standing room throughout; has five berths; ventilation perfect.
"Clifton" engine—(one of the best). 28—45—4 cycle, which never fails. The Osceola is in commission and will be sold for, $3,000.
It seems a shame but am following the instructions of my owner. Apply to

Capt. Robt. L. Packard
Lyon's Dock, Miami, Fla.

EVERGLADITIS

Florida Index

It seems that the special nerves governing many people's thoughts about the everglades are terribly irritated and inflamed.

For some time this paper has been receiving long-winded articles from some Fort Lauderdale headquarters named for the everglades, and the sender is actually kind enough and considerate enough of the danger of our giving these long drawn out tirades to the public too early, to actually designate the date on which each such valuable document shall be "released for publication." Kind, indeed!

To make a long story short, we are thoroughly disgusted with the entire everglades row.

In the first place, we do not need the everglades, and will not need them for fifty years. Florida is already overstocked on land, and we can find good land in Columbia and adjoining counties for every purchaser of everglades land—and practically every foot of it already drained.

That 20,000 people who bit at this thing and invested in everglades lands are to be pitied, of course, but people with their kind of judgment would be likely to be fooled into a blunder in some other direction, and so if they are to suffer financial demise at all ,it might as well result from evergladitis as any other malady. With the birth of a new sucker every hour, evergladitis is likely to be epidemic.

But there are millions of good acres scattered all over Florida, that present a much better proposition than the everglades, and our contention is that this abundance of land should be looked after—most of it ready for the settler now.

Some people's arguments would lead a stranger to the conclusion that about all these people think the state of Florida was organized for was to drain the everglades, and from the importance they attach to the question it would seem that as soon as the drainage of the everglades is completed, the state government might as well be dispensed with!

And suppose those 20,000 purchasers of everglades land should all get their land to producing—in the name of common sense what would become of the stuff they could produce? So far from northern markets, and wholly at the mercy of the transportation companies, if all these tracts were producing, the year after the close of the European war the combined crop would not net enough to pay taxes and insurance!

It may be said that many of these people are obsessed, or are monomaniacs, or some other thing; but if they are, the malady, whatever it be—is contagious; the bug has bitten a multitude. N. B.

But of course, when these snowbound northerners read of Florida they only think of Jacksonville and Tampa and the everglades: Lake City is doing mighty little to convince these people that they can beat the everglades right here in Columbia county.

Why? ? ? ?

CROSS, FEVERISH CHILD IS BILIOUS OR CONSTIPATED

Look, Mother! If tongue is coated give "California Syrup of Figs"

Every mother realizes, after giving her children "California Syrup of Figs," that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember, a good "inside cleansing" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeits sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup Company."

BURGLAR SHOWS HIS APPRECIATION

He Steals a Suit of Clothes, Leaving a Note of Thanks.

Kansas City Times—A robber who entered the home of P. J. Heppler at 2101 Belleview avenue while the family was away the other afternoon took a suit of clothes and left the following note:

"Dear Friend: I thot I would let you know that I neaded a sut of close and I am glad that I opent the door and helped myself. I thank you. Yours treuly, A BURGLAR."

A shoal of herrings is sometimes five or six miles in length and two or three in breadth.

DIXIE HIGHWAY TRACT

To those residing permanently in Miami and to tourists here for the season

J. A. Gates & Son, have a message.

We have formulated a plan whereby we can greatly reduce the price of real estate to purchasers, cause the business of real estate to be more highly respected, and to be more enjoyable and satisfactory to those engaged in the traffic.

We purpose to sell lots in a tract by employing hired salesmen just as a merchant sells goods in his store by clerks in his employ. Parties visiting our Dixie Highway Tract, now being offered, will be shown over the tract by our salesmen. A tag bearing the lot and block number and price of lot is attached to a stake placed in front of each lot, to be detached by purchaser and presented at office of tract owner, where papers in settlement will be drawn.

We can, we believe, by this method save purchaser 25 per cent or more and complete the transaction most expediciously and satisfactorily.

We especially call attention to location of our Dixie Highway Tract. It adjoins the Charles Deering place on the north and extends from Dixie Highway to Bay View Ave., overlooking the Bay. All inside lots are held at a uniform price of $195 each, corners $300. If in this connection you note the fact that lots in Flander's tract which adjoins the Charles Deering place on the south are held at prices ranging from about $3,000 to $5,000, and are on lower land; you will readily see that lots in Dixie Highway will certainly appreciate rapidly in value with the growth of Miami and that you will make no mistake in buying now. Is it unreasonable to expect an advance of one hundred per cent in values within one year. May we not urge those of our home people thinking to secure a lot while cheap in price and most attractively located to select now. May we not urge tourists seeking a place for building a winter home to visit us; and may we not especially urge builders who want to get a bunch of lots on which to build houses to sell or rent to select now while the selecting is good—the bunches are unbroken.

Dixie Highway Tract has many advantages, such as electric lights, telephones, jitney busses about half hourly, ice, meat, groceries delivered daily, daily mail delivery, high school, churches, literary clubs, fraternities, and other advantages of a happy and cultured community.

This is an Unusual Advertisement

which it would repay most any investor in Miami to read and consider carefully. If you invest in Miami real estate, it would be the part of wisdom to purchase

From a Reliable Company

and select a property that is most likely to steadily grow in value for several years to come.

If you intend building a home, it should be in a residential district in reality as well as name and with an iron-clad guarantee that there will never be a restaurant, hardware store, livery stable, barber shop, saloon or blacksmith shop across the street nor around the corner.

If you wish to build in a neighborhood where the average run of residences will be around $5,000, we can furnish these locations. If you wish to build in a neighborhood where the restrictions call for residences to cost $10,000, we also have such sites to offer.

Large sums of money have been expended and intelligent care exercised in developing Alton Beach, with the result that it stands today unexcelled as a high class residential subdivision, and is attracting the most desirable class of people from all sections of America.

Our plat covers 500 acres, 2½ miles of Bay front property, ½ mile of Atlantic Ocean front and ¾ of a mile fronting the Golf Course.

Unlike most real estate companies, we mark our prices in plain figures, and these figures mean no more, no less. You can depend upon buying a plot at these figures and that your neighbor will pay the same price, notwithstanding any shrewd ability to purchase real estate at the lowest market value.

Our present prices on Alton Beach lots are guaranteed not only for this, but for five years. And we further guarantee an advance of at least 8 per cent. on our prices on every unsold lot as now marked on our plat, each year, for five years. These advances, of course, may be a great deal more than this amount.

We have recently resold some property for customers at more than double the price paid us for same two years ago.

And we hereby make an open offer to cash any piece of property the Alton Beach Realty Company has ever sold in the Town of Miami Beach or the City of Miami, with 6 per cent. interest per annum since the date of purchase. So far as we know, no other real estate company in the United States has ever made this offer, because no other real estate company in the United States has ever had such exceptional property to sell and resell as we offer.

These figures and facts speak for themselves, and should appeal particularly to business men who care to investigate the financial standing and responsibility of the Alton Beach Realty Company and its ability to make good on these offers.

We only offer sixty lots for sale on Alton Beach this year, and these lots are for home builders.
